Atomic Ouster Appeal Filed By Dr. Oppenheimer

By WARREN ROGERS JR.
WASHINGTON (AP)—The Atomic Energy Commission had before it today Dr. J. Robert Oppenheimer's plea for quick action on a special board's split recommendation to bar him from the atomic secrets he helped unfold.

The three-man security board set up by the commission found, after six weeks of secret hearings and deliberation, that the 50-year-old "Oppy" is a "loyal citizen"—but too much of a security risk to get back the cleared-for-secrets status he lost last Dec. 23.

Blamed For Delay

As disclosed Tuesday by Oppenheimer's attorneys, the special board ruled 2-1 that the noted physicist and atomic pioneer had contributed to delaying a "concerted" start on hydrogen bomb development and had associated with Communists for years.

In a minority opinion, Dr. Ward V. Evans, chemistry professor at Loyola University of Chicago, said of Oppenheimer:

"He did not hinder development of the H-bomb and there is absolutely nothing in the testimony to show that he did . . ."

The Oppenheimer attorneys, headed by Lloyd K. Garrison, said in a letter to AEC General Manager K. D. Nichols that allegations by the majority were old hat—charges which the commission had thrown out seven years ago.

Oppenheimer, now director of the Institute for Advanced Study at Princeton, N. J., could not be reached for comment.

The two members of the security board who voted for suspension were Gordon Gray and Thomas A. Morgan. Dr. Evans argued Oppenheimer had been cleared of the charges in 1947.

Still Loyal Citizen

Gray, former secretary of the Army and now president of the University of North Carolina, joined with Morgan, former president of the Sperry Corp., in "a clear conclusion" that Oppenheimer "is a loyal citizen."

Nevertheless, they said, they could not recommend Oppenheimer's reinstatement because of these four "controlling" considerations:

1. A "serious disregard" by Oppenheimer for security requirements.

2. "Susceptibility to influence" which could hurt national security.

3. Lack of candor by Oppenheimer at times during the board's hearing, such as in discussing the extent of his opposition to the H-bomb program.

Among early reaction to the board's recommendation was a statement issued by the Atomic Scientists of Chicago Tuesday night. They called it "unfortunate . . . disturbing . . . frightening."

The 33-page report filed with the

Detroit Man Faces Charge Of Kidnaping Beloit, Wis., Children

CHICAGO (AP)—A 34-year-old Detroit man Tuesday was ordered removed to Madison, Wis., to face trial on charges of kidnaping two youngsters from Beloit, Wis.

U. S. Commissioner C. S. Bentley Pike set bond at \$50,000 for Joseph McElroy.

He was seized May 20 at a farm near Elwood, Ill., 50 miles southwest of Chicago. With him were Karen Draeger, 7, and her 3-year-old brother Chris.

Karen was a witness at Tuesday's hearing. She said McElroy picked up her and her brother May 11 near their home in Beloit and let them out in Rockford,

Administration Points To Impressive Record Against Subversives

By MARVIN L. ARROWSMITH

WASHINGTON (AP)—President Eisenhower said today his administration has an impressive list of accomplishments in fighting communism and subversion.

The President made the statement at his news conference after virtually barring questions on the sharp controversy between members of his administration and Sen. McCarthy (R-Wis.).

One newsman, nevertheless, asked the President whether he feels that McCarthy is hurting the administration's legislative program.

Just One Objective

A look of sharp annoyance came over the President's face and after a pause he turned away from the questioner and snapped out that he was ready for the next question.

In ruling out questions about the McCarthy-administration controversy, the President said that from now on he has just one objective—to get his legislative program enacted.

And, in declaring that the administration—through the Justice Department and the Federal Bureau of Investigation—is doing a good job in fighting communism and subversion, Eisenhower made public a report from the department listing what he called the accomplishments of the administration during its first 16 months in office.

Job Done Quietly

In a prepared statement, Eisenhower said "the constant surveillance of Communists in this country, is a 24-hour seven-days-a-week 52-weeks-a-year job. It is carried out by the appropriate federal agencies in conformance with due process of law. It is being done quietly and relentlessly and those who best know its effectiveness are the Communists themselves."

At the outset of the conference, the President said that one word—communism—seemed to get more attention these days than any other.

Then he went on to mention the Justice Department report and his statement on it, but he did not read the statement. He said it amounted to an impressive list of accomplishments.

Then Eisenhower alluded to a statement which Atty. Gen. Brownell issued last Friday and the President said it was put out at his (Eisenhower's) direction.

That amounted to a reaffirmation of the administration position

with respect to McCarthy.

In the Friday statement, Brownell said the executive branch of the government "has the sole and fundamental responsibility under the Constitution for the enforcement of our laws and presidential orders."

Brownell added those laws include the ones dealing with national security, and he said further that the responsibility of the executive branch "cannot be usurped by any individual who may seek to set himself above the laws of our land or to override orders of the President of the United States to federal employees of the executive branch of the government."

The Brownell statement was prompted by McCarthy's call on government workers to supply him with secret information about subversion regardless whether such action violated a presidential directive.

Since the Brownell statement McCarthy again has called on federal employees to supply him such data and he said Tuesday he would not abide by a secrecy order of anyone.

McCarthy's attorneys, however, said the executive branch of the government "has the sole and fundamental responsibility under the Constitution for the enforcement of our laws and presidential orders."

Brownell added those laws include the ones dealing with national security, and he said further that the responsibility of the executive branch "cannot be usurped by any individual who may seek to set himself above the laws of our land or to override orders of the President of the United States to federal employees of the executive branch of the government."

The Brownell statement was prompted by McCarthy's call on government workers to supply him with secret information about subversion regardless whether such action violated a presidential directive.

Since the Brownell statement McCarthy again has called on federal employees to supply him such data and he said Tuesday he would not abide by a secrecy order of anyone.

City Of Wausau Traffic Safety Award Winner

CHICAGO (AP)—State and city winners in the 1953 national traffic safety contest were announced today with top honors going to Virginia and Wausau, Wis.

Fourteen other states and 26 other cities won divisional honors in the contest, which was conducted by the National Safety Council. Special awards were voted for outstanding achievement in accident prevention.

The awards were based on which cities and states came nearest to doing the most for traffic safety. The contest was scored on the basis of 1,000 points divided between traffic deaths and the traffic safety program.

Forty-seven states and 843 cities entered. Cited for the honor roll were 633 towns (5,000-10,000 population) for going through 1953 without a traffic death.

First-place winners among states:

Virginia (Southern States, plus the grand award), New Jersey (Eastern), Oklahoma (Midwestern), Washington (Western) and Pennsylvania (among eight largest states.) The eight largest states were grouped separately because of special traffic problems.

Ann Arbor Second

Award-winning cities:

Los Angeles (one million-and-up group), San Francisco (750,000-1,000,000), Seattle (500,000-750,000), Phoenix, Ariz. (100,000-200,000), Kalamazoo, Mich. (50,000-100,000), Wausau, Wis., (25,000-50,000 plus the grand award) and Garden City, Kan., (10,000-25,000).

Other cities to win regular awards include:

50,000-100,000—Evanston, Ill. second.

25,000-50,000—Ann Arbor, Mich. and Norwalk, Conn., tied for second.

10,000-25,000—Peru, Ind., second; East Lansing, Mich., and Winnetka, Ill., honorable mention.

Six other civilians working on the submarine were not injured.

Capt. Robert E. Cronin, commander of the shipyard, said the blast was in the submarine's main ballast tank where the two victims were spraying a plastic substance.

He said the submarine did not appear heavily damaged.

The Navy identified the dead men as Raoul Senechal, 28, and Joseph E. A. Rousseau, 40, both painters.

The injured sailor is Engineman first class John Perry of Columbia, Ala.

Arms And Tanks Sent To Honduras By United States

TEGUCIGALPA, Honduras (AP)—The United States stepped up military aid today to Honduras, southern neighbor of Communist-influenced Guatemala and a potential ally in blocking any Red move toward the Panama Canal.

U. S. Army Col. M. C. Shattuck, chief of the U. S. military mission in Honduras, planned to start today a training program for officers of a new 800-man combat battalion to be whipped into shape.

The Honduran war minister, Gen. Leonidas Pineda, announced the United States is sending more arms and tanks for the outfit.

Merger Voted; Presbyteries To End Segregation

MONTREAT, N. C. (AP)—The general assembly of the Southern Presbyterian Church Tuesday night ended a historic 94th annual session in which it voted to join with two other major Presbyterian churches and called upon its own churches to end racial segregation.

The general assembly also acted to end segregation at three schools under its supervision, and called on the presbyteries and synods to do likewise at schools they control.

It was announced that membership of the Presbyterian Church in the United States (Southern) stands at a record 760,000.

The general assembly, the high court of the church, voted to join with the Presbyterian Church in the U. S. A. (Northern) and another northern group, the United Presbyterian Church. The plan for union needs the approval of three-quarters of the 84 presbyteries in the Southern church, and two-thirds in the other two groups, whose general assemblies approved the union last week. A united church would have 3½ million members.

Admitting negroes is left up to individual Southern Presbyterian churches.

The Northern and Southern Presbyterian churches split during the Civil War.

The general assembly made the Southern Presbyterian Church the first major denomination to endorse with action the recent decision of the U. S. Supreme Court against segregation in public schools.

Pension System Revision Passes In House, 355-8

By WILLIAM F. ARBOGAST
WASHINGTON (AP)—Cleared overwhelmingly by the House, a bill wrapping up most of President Eisenhower's program for broadening the social security system headed today for the Senate where it may be in for some tailoring.

The House passed the bill Tuesday by a 355-8 rollcall vote and in just the form recommended by the House Ways and Means Committee.

Sen. Millikin (R-Colo.), chairman of the Senate Finance Committee which now gets to handle the bill, said the House measure appeared to be "generally acceptable."

Base of \$6,000 Favored

But some senators reportedly want to provide larger benefits and to widen to \$6,000 the annual wage base on which social security taxes are levied. The base is now \$3,600. Under the House bill it would be increased to \$4,200.

There also is said to be Senate sentiment for direct payments to eligible workers who become disabled. These workers now get nothing before retirement.

And strong sentiment is reported for inclusion of physicians, many of whom were understood to have written to their congressmen urging such action despite the American Medical Assn.'s stand against social security coverage for doctors.

Monthly Payments Boosted

In general, the House-passed legislation would:

1. Blanket about 9,700,000 more persons into the social security system. Some of these would have a choice of coming in or staying out.

2. Increase the annual wage base on which workers and their employers pay social security taxes and on which benefits are calculated.

3. Boost monthly benefit payments for persons already retired and those retiring in the future.

4. Permit retired persons under 75 to earn more money through part-time or full-time employment without losing benefits.

Largest new group that would be brought into the social security system include 3,600,000 owners or operators of farms and 1,300,000 farm hands.

Entitled to coverage for the first time also would be 3½ million state and local government employees now under state and municipal retirement systems. They would be given the option of staying out. Policemen and firemen were not included.

Some 150,000 federal employees would be covered for the first time.

Effective In Two Months

Others made eligible for benefits include 400,000 self-employed professionals, about 250,000 domestic workers, 250,000 clergymen and members of religious orders, and 100,000 Americans employed abroad by foreign subsidiaries of U. S. firms.

More than 6,300,000 persons now drawing social security benefits would get an average increase of \$6 a month. Their monthly payments would range from \$30 to \$98.50. These boosts would become effective months after the bill becomes law.

Persons retiring in the future, or

Twisters Hit Texas And Pennsylvania; One Dead, 11 Injured

By THE ASSOCIATED PRESS

Tornadoes struck in sections of western Texas and western Pennsylvania Tuesday night, killing one and injuring 11.

Wind-whipped thunderstorms hit New York State late Tuesday. Two persons were killed, many buildings were damaged and light and telephone service was disrupted. One of those killed, Theodore Bobbett, 15, was struck by lightning on a school athletic field at Union Springs.

Strong gusty winds blew over sections of the plains states today, with gusts of 55 miles per hour reported at Pierre, S.D.

A storm which swept the Midwest Tuesday was in the eastern Great Lakes region this morning. Cooler air pushing eastward north of the storm center brought showers and thunderstorms throughout Ohio, Pennsylvania and New York State.

Rain was general from the north-

ern Rockies eastward across the northern Plains. Thunderstorms rumbled across the central Plains states.

Up to six inches of snow fell at points along the Continental Divide Tuesday as a cold front moved across Montana. Snow fell in Great Falls, Butte, Lewistown and Belgrade.

One of the twisters in west Texas killed an infant and injured nine persons at Paducah. A smaller tornado struck near Bakersfield, 110 miles west of San Angelo. Winds of 100 m.p.h. lashed Wichita Falls. Paducah, a town of about 2,500 population, was heaviest hit, with damage to downtown buildings and some homes. Much near-ripened cotton also was reported ruined.

The tornadoes in western Pennsylvania struck in rural areas, north of Pittsburgh, with property damage totaling thousands of dollars.

Rain was general from the north-

ing to his former landlady, Mrs. Leona Ramthun, from a phone booth in a downtown theater.

As detectives pushed open the door, he exclaimed:

"Oh my God, here are the police. They got me, Leona."

He offered no resistance.

Bashlor, a Detroit, had been serving a life sentence for the murder of John E. Stephenson who surprised the youth in the act of burglarizing his Jacksonville, Fla., home. Bashlor was sentenced in November, 1951.

He told police:

"I'll confess anything to keep from going back to Raiford. The guards there are a bunch of sadists. When I was there I was kicked, beaten and once had 150 pounds of water pressure shot at me from a hose."

The phone conversation with Mrs. Ramthun marked the second time a woman had figured in the capture of the tanned, crew-cut youth.

A Detroit taxi dancer, Lillie Mae Lemmonell, figured in Bashlor's original arrest for the murder. She was the bait in a police trap. She currently is serving a 2 to 14 year jail term for parole violation stemming from a forgery conviction.

Bashlor told police he escaped while in town with guards to buy office supplies for the prison.

City To Greet Many Visitors

Maintaining its reputation as one of the leading convention cities of the Upper Peninsula, Escanaba will be host to four major meetings and get-togethers in June and July. Hugh Grow, secretary of the Escanaba Chamber of Commerce, announced today.

"At least 1,000 visitors will be here for four events and for hundreds of others will be here for smaller occasions," Grow said.

Five hundred delegates and visitors are expected to attend the U. P. Lions Club convention here Saturday, Sunday and Monday, June 12-14, inclusive, plans for which are being made by a committee headed by Arthur Goulais, chairman.

Cruise Ship Coming

At least 250 will be aboard the Steamship South American when it docks at the city municipal dock here at 4:45 p. m., Wednesday, June 23. These visitors will be from the Arrarat Shrine Temple of Kansas City, Mo. They will make a Great Lakes cruise.

Tentatively scheduled for June 18 is the showing of the "Grand Old Opry" at the Escanaba junior high school auditorium under the sponsorship of Company C, Escanaba National Guard. Detailed announcements about this and other June events on the Chamber calendar will be made later.

The Escanaba Junior Chamber of Commerce program on July 4 is the first event slated for July, Grow said. The customary entertainment, including elaborate fireworks, will be provided at Escanaba's beautiful Ludington Park.

Attorney, Sheriffs

Approximately 150 persons will attend the summer meeting of the State Bar of Michigan here Friday and Saturday, July 16 and 17, and about 100 will attend the annual convention of the Michigan Sheriffs' Association here Monday, Tuesday and Wednesday, July 26, 27 and 28.

"As other events are scheduled, they will be reported," Grow said, "I would like to remind all residents of Escanaba that we have mimeographed schedules of hotel, motel, cottage and resort rates, locations, description and so forth, a walleye fishing bulletin and copies of the Delta County Tourist Guide which we will send to anyone planning to visit Escanaba."

Chester Rice Is Reelected Grand Knight Of K Of C

Chester Rice was reelected grand knight and Irving Houle the deputy grand knight at the annual election of the Escanaba Knights of Columbus.

Other officers elected follow: chancellor, John Sankovich; warden, Don Weber; recording secretary, Arthur Messier Jr.; treasurer, Walter Bjorkquist; advocate, Joseph Lequia; inside guard, Henry Grenier; outside guard, Peter Vanlarhaven; trustee, Leo Laviolette.

Ralph Kaziateck Joins Press Staff

Ralph Kaziateck, formerly employed by the Ishpeming Iron Ore, has joined the editorial staff of the Escanaba Daily Press.

Kaziateck has been on the Ishpeming Iron Ore staff for the past eight months following his discharge from military service. Previous to that he was employed at the Marquette Mining Journal.

He is married and has two children. The family now resides in Marquette but will move to Escanaba as soon as housing facilities are secured.

Personals

D. W. MacDonald of Milwaukee, former resident of Escanaba, is visiting here this week and is a guest at the Sherman Hotel.

Wells

Mr. and Mrs. Alfred Van Harpen of Menasha, Wis., have returned to their home after a visit with Mr. Van Harpen's sister and family. Mr. and Mrs. Dale Polkey and son of Wells.

Holy Name Election
Clarence Sandborn was named president of the Holy Name Society of St. Anthony's Church in Wells at a recent election. Byron Ford is vice president, Arthur Weber, secretary, Robert Engdahl, treasurer, and Ed Casey, sick and vigil chairman.

Three Phases:

Escanaba Council Study Now Includes Municipal, Public, Private Power

First decisive action in several months in seeking a solution to the community's power shortage problem was taken last night by the Escanaba City Council.

The actions followed final reports on two phases of study by the Power Advisory Committee, covering a proposed 10-year power contract with the Alger-Delta Electric Co-operative Association and the proposed construction of a city-owned power plant; and an offer of the Upper Peninsula Power Company, Houghton, to study and offer a solution to the power problem. The offer was accepted and the studies now under way fall into three phases:

1—Public power, proposed to be supplied by Alger-Delta from a \$4,000,000 generating plant financed by a loan from the Rural Electrification Administration.

2—Municipal power from a proposed city-owned generating plant estimated by the Power Advisory Committee to cost \$2,500,000 to \$2,600,000 which would be financed by Escanaba utility revenue bonds.

3—Private power, from a source not yet named, as offered by the Upper Peninsula Power Company. Following a study the private power company would "offer our solution for working out your present and future power problems."

Mayor Harlan Yelland last night pressed for action and urged "no delays" in moving toward a decision by the Council in the selection of one of the three plans best for the community.

Site And Taxes
In reply to questions previously submitted to the Council by Alger-Delta in connection with its proposed 10-year power contract the Council:

Agreed to furnish a "mutually acceptable" site for the proposed Alger-Delta power plant; adopted a motion which would permit the Cooperative to obtain easement for its power lines in the city; asked the city attorney for a written opinion as to the legality of the city waiving city taxes (not school and county taxes) to Alger-Delta if its plant is built in Escanaba; and directed Alger-Delta's attorneys to meet with the city attorney in discussion of Alger-Delta's proposal covering a future joint expansion of the proposed power plant.

Alger-Delta will submit a new power contract proposal after questions on plant site, easement, and tax adjustment are answered.

Committee Reports
The Escanaba Planning Commission, asked by the Council to recommend a site for the proposed Alger-Delta plant, will consider sites for a proposed municipal plant also.

The Power Advisory Committee, headed by Todd Gayeff, filed the second of two reports with the Council. The first report covered the proposed contract with Alger-Delta, and the second the municipal power plant.

Third phase, that of negotiations with Upper Peninsula Power Company, was left to the "jurisdiction" of the Council.

The Power Committee, however, will stand ready to offer "detailed information" it has assembled in its study of the power shortage problem.

City Plant Costs
This will include information to the Planning Commission in its discussion of sites for the Alger-Delta power plant.

July Induction Call For 7 Men

Seven Delta county men will leave by chartered bus at 2 p. m. on July 14 for Milwaukee and will be inducted into the service on the following day, it was reported by Mary Wagner, clerk of Delta County Selective Service Board. The names of the men have not been announced yet.

In emphasizing part of a recent bulletin received from State Headquarters in Lansing, Miss Wagner said, "Effective with the month of July, all volunteers will be sent for preinduction examinations one month prior to being accepted for actual induction. This will enable the board to be assured of physically qualified men to meet official calls."

Before this directive was issued, various boards were having difficulty in filling their quotas. At times the call would be for six men who would be sent for examination and part of the number then inducted. Not all of the men would be physically qualified resulting in an unfilled quota, she added.

Partly Cloudy, Local Forecast

Partly cloudy and continued cool with the possibility of rain by late afternoon or evening is the forecast for tomorrow as submitted by S. W. Kipper of the Escanaba Weather Bureau.

Today's high is 56 and the expected low for this evening is 40. Frost in the interior this evening is also expected, Kipper added.

Father Neurohr's First Mass Sunday

PERKINS — Father Gilbert Neurohr of Perkins, who will be ordained at St. Peter's Cathedral in Marquette Saturday at 10:30 a. m., will offer his first Solemn Mass at St. Joseph's Church in Perkins at 10:30 a. m., Sunday. The early Mass at the Perkins church will be at 8 a. m.

The first Friday Mass will be celebrated at 7:30 p. m.

solution of the Escanaba problem could not be taken earlier because Upper Peninsula Power Company has been engaged in an expansion program that included purchase of the Cliffs Power & Light Company, Michigan Gas and Electric Company properties, and construction of a 22,000 KW generating plant at Marquette.

Council approved the request and gave the power company 30 to 45 days to make a report.

The meeting closed with Mayor Yelland noting that further action by the Council must await legal opinions, a final proposal by Alger-Delta, and the report of an engineering firm on the proposed municipal plant.

EARLY BIRD — Kiddies in the U. S. will be seeing plenty of this type of Santa Claus next Christmas. Santa is being readied in Copenhagen, Denmark for export to America. He stands 12 feet high, has a rubber face with "muscles" so that he can move nose, mouth, eyes and ears.

Manistique Girl Named Moderator

IRON MOUNTAIN—Young people representing the Presbyterian churches of the Upper Peninsula met for their annual spring meeting on Saturday in the First Presbyterian church when Kathryn Hall of Manistique, was named moderator, succeeding Nancy Best, of Iron Mountain.

Delegates, attending from Iron River, Menominee, Escanaba, Marquette, Calumet, Manistique and Ishpeming, named Nancy Cain, of Iron Mountain, vice-moderator, and Carol Best, also of Iron Mountain, state clerk.

Participating in the discussions were Escanaba, Manistique, Marquette and Iron Mountain groups and Joseph Paul, of Manistique; Mrs. D. Paris, of Menominee; Clarence Zerbel, of Escanaba; Bill Atkins, of Ishpeming; Howard McKie, of Marquette, and Amos Marston, of Iron Mountain. The Rev. Paul Sobel is youth advisor.

Mink Breeders Hold Meeting

The Upper Michigan Mink Breeders Association met last night at the Ford River Town Hall. There were 50 ranchers present. Joe Heirman, agricultural agent for Delta County, was introduced by the president, Joseph Whitney. Heirman spoke on the possibility of raising broilers on surplus mink feed. In the general discussion which followed some ranchers said that plump chickens can be raised by this method. The possibility of a future program on this topic with a representative from Michigan State College as a speaker was presented.

Orders for 160,000 pounds of mink feed were taken for the month of June.

It was decided that the Mink Association Field Day program will be held in October as a special meeting.

The president appointed a committee consisting of Kenneth Sturdy, of Groos, Art Theuerkauf of Menominee and Harold Pipkorn of Hermansville to consult with Dr. Hartsough, DVM of New Holstein on a program of vaccination for distemper this fall.

A panel consisting of Art Theuerkauf of Menominee, Harold Pipkorn of Hermansville, Joseph Whitney of Soo Hill, Robert Nemuth of the Kellogg Feed Co., William Andrews of Wisconsin Milling Co., and Clarence Sturdy of Groos, answered and discussed questions submitted by members concerning local problems in ranching of mink.

A special assessment of \$5.00 per member was unanimously voted by the membership.

The following new members were accepted into the organization: Joe Osier, Marinette; Fred Roenfaiz, Marinette; Robert H. Schwartz, Menominee; Thomas Caffery, Germfask; Ansel Burrell, Manistique and Alvin Johnson also of Manistique.

Trust Investments Outlined To Board Of Education Here

Procedures in the investment of trust funds were outlined to members of the Escanaba Board of Education and other interested citizens last night in an illustrated lecture by Henry Parker and Henry Tibbitts of the Harris Trust, Chicago. The meeting was held at the study hall of the Junior High School.

It was explained that the Harris Trust invests trust funds two thirds in high grade bonds and one third in specially selected common stocks. This procedure has proved to be most productive over the years, Parker said, and the system has enabled the company to buy common stocks generally at low prices and to sell portions of the holdings at high market values.

The Board of Education will invest Norton Scholarship funds with the Harris Trust and also will invest a portion of the Cath-

Mustard and Ketchup Stains

by Melton McGovern

There are just four things to remember about mustard and ketchup stains which will help you save your garments from unsightly brown stains.

1. If the mustard or ketchup has been spilled on a washable garment, sponge out with clear water. DO NOT USE SOAP. DO NOT PRESS THE GARMENT UNTIL THE STAIN HAS BEEN COMPLETELY REMOVED.

2. DO NOT, if at all possible, merely allow the stain to dry out and then let the garment hang in the closet for a long time. These stains develop with age and then they're almost impossible to get out.

3. If the mustard or ketchup gets on a "cleanable" garment, DO NOTHING. ABOVE ALL, DO NOT RUB OR WIPE IN ANY WAY. This only forces the stain deeper into the fabric fibers and makes it more difficult to remove.

4. ALWAYS TELL US ABOUT THE STAIN. We can then employ special spotting and "spot-digesting" techniques prior to regular cleaning. Unless it's an extra-ordinarily complex procedure, there is no extra charge for this extra service. And you'll get your garment back in better condition.

The main thing about all stains is that it isn't usually the stains themselves that cause damage. It's the aging or handling afterwards.

So—again, please—DON'T RUB... DON'T USE A HOT IRON... TELL US... and, if it's washable—SPONGE OUT WITH CLEAR WATER ONLY. And of course, you'll always be safe with all your clothes when you

Holiday Injury Toll Hits 16

A belated report of an accident Saturday night on US-2 a mile west of Bark River in which five persons were injured brought to 16 the number of persons injured in traffic mishaps in this area over the Memorial Day weekend.

Mrs. Anthony Tripoli, 34, of Chicago, was seriously injured in the accident at 8:20 p. m. She sustained a severely lacerated lip, fractured pelvis, a possible fracture of the spine, a fractured jaw and several fractured ribs.

Her husband, Anthony, 35, who was driving the car, suffered a fracture of the right collarbone. Their three children, Janice, 13, Edward, 12, and Anthony Jr., 4, also were injured. Janice and Edward suffered minor abrasions, shock and mild concussion. Anthony Jr. sustained a fractured left wrist.

Mr. Tripoli and son, Anthony Jr., have returned to Chicago. Janice and Edward, also released from St. Francis Hospital, Escanaba, are staying with Mrs. Tripoli's parents, Mr. and Mrs. Frank Dawson, Danforth.

The accident occurred when Mr. Tripoli started to pass a car which suddenly swung out to pass a car ahead. Mr. Tripoli's car hit a road marker on the left side of the highway and overturned. The car was demolished.

The accident was investigated by Michigan State Police but by an oversight it was not reported with other accidents of the weekend.

Upper Peninsula Briefs

IRON MOUNTAIN — Deputy Marshal Andrew Chamberlain, of the Niagara police department, and Patrolmen John Wicklund, of the Norway police department, who were seriously injured in an accident late Friday night, today were reported to be in favorable condition at the Memorial Hospital at Iron Mountain.

MARQUETTE — Three men were hospitalized Tuesday with burns suffered when a gas water heater exploded Monday afternoon and a resulting fire destroyed a two-story West Branch Township home, 14 miles from Marquette.

SAULT STE. MARIE — A speech clinic for cerebral palsied children in Sault Ste. Marie and vicinity will be held in the Malcolm elementary school in Sault Ste. Marie on Friday, June 4. It will be the 19th in a series of 24 such speech clinics, jointly sponsored by the United Cerebral Palsy Association of Michigan and the Speech Clinic of the University of Michigan.

CALUMET — The Northern Hemlock and Hardwood Manufacturers Association, manufacturers of lumber, hardwood flooring, veneers and plywood from Wisconsin and Michigan will meet at King's Gateway Hotel on June 8.

IRONWOOD — The Penokee mine of Republic Steel Corp. did not resume operations today following the Memorial Day holiday because of "unprecedented high water conditions in the area," according to an official company announcement.

Blind Man And Dog Get Year In Prison

OAKLAND, Calif. (AP)—Flame, a guide dog, will spend a year in prison—through no fault of his own.

He will accompany his blind master, Ralph Gross, 39, of Oakland, who was sentenced Tuesday to a year at Santa Rita Prison farm for passing bad checks.

Gross, a peddler, pleaded guilty May 11 to writing a useless check for \$350.

DEATH FOLLOWS RESCUE — Mike, a horse weighing about 2,200 pounds, was rescued from an abandoned well into which he fell Sunday afternoon—but he died of his injuries about 8 a. m. Monday. The accident occurred on the Fred Reese farm at Perkins, and Reese is pictured feeding Mike and coaxing him to get to

his feet. The horse, one of a team, was owned by John Apter, Perkins farmer. The well was about eight feet deep and a crew of men with a log jammer and a bulldozer worked four hours to lift the horse out of the hole. (Photo by Mrs. Fred E. Hackenbruch)

C. A. LaFave Dies Suddenly

MANISTIQUE—Clarence A. LaFave, 56, of Gulliver, a former resident of Gladstone, died unexpectedly last night of a heart attack at the Northland Hotel in Marquette.

Mr. LaFave was associated with the C. W. Davis Lumber Company in Gladstone over 25 years as office manager and later company manager. He moved from Gladstone in 1948 and since that time had operated the National Specialty Sales Company, Manistique.

He was a past president of the Gladstone City Club, now the Gladstone Chamber of Commerce. He also was a member of the Lions Club, the U. C. T. and the Manistique Elks lodge.

He was born May 1, 1898, in Viola, near Manistique, a son of the late Mr. and Mrs. Edward LaFave.

Surviving are his widow, Mary, a son, Jack of Omaha, Neb., and a daughter, Mrs. R. G. Schmeider, the former Marjorie LaFave, of Dallas, Tex.; two brothers, Edmund, Gulliver and Leonard, Gulliver; two sisters, Mrs. Audrey Hagerty, Mobile, Ala., and Mrs. Marguerite Sheahan, Portland, Ore., and a half sister, Mrs. Dorothy Gorsche, Manistique.

The body was removed to the Kefauver and Jackson Funeral Home in Manistique. Funeral arrangements are incomplete but the services will probably be held Saturday.

Four kinds of hummingbirds, among them the Calliope, which is the smallest in North America, are found in New Mexico.

Obituary

JAMES V. GAFFNEY

Funeral services for James V. Gaffney, who died at his home Monday, will be held at 9 a. m., Thursday at St. Patrick's Church. Burial will be made in Holy Cross Cemetery.

The rosary will be recited this evening at 8 p. m., at the Allo Funeral Home.

ELMER BONIFAS SR.

Funeral services for Elmer Bonifas Sr., life long resident of the Garden Peninsula, were held today at 10 a. m., at the Allo Funeral Home chapel with Rev. Bertin Harrington, O. F. M., officiating. Burial was made in the new Garden Cemetery.

Pallbearers were Norman, Richard and Ralph Morrison, Richard Bonifas, William Haindl, Ted Sundin and Roy Landis.

Out-of-town relatives attending the services were Mr. and Mrs. Clarence Dupuis and Mr. and Mrs. Kenneth Holzberger, Lake Linden; Mr. and Mrs. Niese, Fenton, Mich.; Mr. and Mrs. J. Earl Parks Jr., Grand Rapids; Mrs. Anna Gray, Bay City, and many friends from Garden, Isabella and Manistique.

MRS. PETER KELLONIEMI

Funeral services for Mrs. Tilda W. Kelloniemi, wife of Peter Kelloniemi of Watson, were held at 2 p. m. Tuesday at the Anderson Funeral Home Chapel with the Rev. Amos Marin of Gwinn officiating. Burial was in Gardens of Rest Cemetery.

During the service C. Arthur Anderson sang "God Understands" and "Near the Cross." Mrs. Clovis Colvin was accompanist.

Pallbearers were Ivar Heikinen, Theodore Peippo, William Abrahamson, Otto Niemi and Oscar and Charles Kelloniemi.

Miss Betty Kelloniemi and Gerald and Barbara Selleke of Detroit, Mrs. Sofia Spiroff of Super-

Plan Examinations For West Point

Young men of the Escanaba and Manistique area eligible for appointment to the U. S. Military Academy at West Point, N. Y., are informed that standard competitive civil service examinations for such appointment will be given in Escanaba and Manistique Monday, July 12.

"Due to graduation, there are two vacancies this year at West Point," Congressman Victor A. Knox reported today.

"Before June 7, any and all young men interested in taking the exam should write me in their own handwriting so that I may file their names with the Civil Service Commission."

Traffic Toll Shows Drop In Michigan

EAST LANSING (AP)—A marked drop in Michigan's traffic toll in the first four months of this year was reported today by state police. They said the safety efforts of press, radio and television may be getting results.

Through April, compiled accident reports showed there were seven per cent more accidents than in the same period last year but fewer deaths and injuries.

Deaths dropped to 470, a decrease of 10 per cent from the 524 killed through April, 1953. Injuries declined to 15,757, one per cent less than the previous 15,963.

ior, Wis., and many residents of the Mashek, Woodlawn and Cornell communities attended the services.

Port Authority Will Be Named

Escanaba City Council will meet at 8 p. m., Thursday in City Hall with Mayor Harlan Yelland presiding, and the appointment of an Escanaba Port Authority is among items of business scheduled for the meeting.

Organization of a Port Authority has been proposed by Mayor Yelland to meet the need for consideration of local harbor improvements and port developments anticipated in connection with the St. Lawrence Seaway.

Other business before the Council will include the following:

Opening of bids to supply the city with its propane gas requirements for the fiscal year beginning July 1.

Report on television interference; a recommendation on the purchase of fireworks for the Fourth of July; and the transfer of utility funds to the general fund for the third quarter.

A hearing of objections to improvements of paving on the following streets will be held:

15th Ave. N., Stephenson to Washington Ave.; 19th St. S.; 8th Ave. to 9th Ave.; 16th Ave. N., and 15th Ave. N., Sheridan to Stephenson; 20th St. N., 14th Ave. to ore docks; 15th St. S., 10th to 11th Ave.; 18th Ave. S., Lake Shore Drive to Grand Ave.; 19th St. N., 12th to 15th Ave.; 11th Ave. S.; 15th to 16th St.; 7th Ave. S., 13th to 14th St., and 17th to 20th St.; 18th St. S., 7th to 8th Ave.; 23rd St. N., 12th to 14th Ave.

Kiwanis Club Shown Scenes From Land Of The Midnight Sun

Movies in color, secured last year while on a visit to the Scandinavian countries of Europe, were shown to the Escanaba Kiwanis Club Tuesday by Ruben H. Clouse of Groos. The pictures included beautiful scenic views taken on railway trips to Narvik, Norway; Stockholm, and other points of historical interest. Mr. Clouse included a striking series of shots showing the actual going down of the midnight sun. He added to the travelog with comments describing customs and people in the places visited.

George Eastin was program chairman for the day.

Rotary Club Hears Mrs. Leighton Tell Of Caribbean Trip

An entertaining and informative talk concerning Venezuela and other places visited on a 20-day cruise of the Caribbean was presented to the Escanaba Rotary Club at its meeting Monday noon at the Delta Hotel by Mrs. Fred Leighton of Escanaba.

In company with a friend from Minneapolis, Mrs. Leighton sailed from New Orleans aboard an Alcoa deluxe freighter, with cruise stops at Jamaica, Venezuela, Trinidad and other points of interest.

The industrial development of Venezuela and its utilization of natural resources, including oil, gold and iron, is encouraged by American industry and assisted by technicians from the United States. The development has brought wealth and improvement to the country, Mrs. Leighton reported.

The Venezuelan iron ore is reportedly of higher grade than that of the famed Mesabi range in Minnesota; vast oil developments by American interests are bringing employment and wealth to Venezuela because of laws stipulating that three natives must be employed for each American, and that 10 per cent of the oil must be

Six Priests Get Monsignor Rank

MARQUETTE — The chancery office of the Catholic diocese of Marquette last night received word from the apostolic delegate in Washington, D. C., the Most Rev. A. G. Cicognani, that pope Pius XII has elevated six priests of the diocese to the rank of monsignor.

Five of them—deacons in their respective areas—are given the honor of domestic prelate with the title of "right reverend." They are the Very Rev. Nolan B. McKevitt, rector of St. Peter's Cathedral, Marquette, the Very Rev. Albert C. Pellissier, pastor of St. Mary and Joseph Church, Iron Mountain, the Very Rev. Joseph H. Seifert, pastor of St. Ambrose Church, Ironwood; the Very Rev. George Laforest, chaplain of St. Joseph's Hospital, Hancock, and the Very Rev. Theodore G. Bateski, pastor of

refined in Venezuela.

Returning from the cruise, the freighter carried besides its passengers a cargo including 6,000 tons of bauxite used in the manufacture of aluminum, and coffee and bananas, Mrs. Leighton reported. She described the cruise as "thoroughly delightful."

She was introduced by Dr. Vernon K. Johnson of the Rotary Club's program committee.

ESCANABA DAILY PRESS

Highway Leath Toll Unabated; Only Answer Is Reduced Speed

THE death toll from traffic accidents in the nation over the Memorial Day weekend totalled 355, with some returns still not in. Michigan accounted for 35 traffic deaths and although Delta County escaped without a fatality, there were 16 persons injured in accidents in this area over the weekend.

The toll of deaths slightly exceeded the estimates made by the National Safety Council. The fact that the actual deaths tally so closely to the estimates indicates, we think, the tragic disappointment of traffic safety campaigns. There simply has been no effective device yet created that has made any major effect towards a reduction in the highway traffic toll.

Some of the best brains in the nation have been working on traffic safety for years. Sure, some progress has resulted but not enough. A few people have become duly conscious of the need for traffic safety. A lot of people talk about it but when they get behind the wheel of their automob-

ile, they apparently believe traffic safety rules are for other people.

What to do about it? The person who comes up with an acceptable answer to that question rightfully will earn the thanks and heartfelt appreciation of millions of people.

The truth is that a lot of people already know the answer but recognize that motorists are not ready to accept it. The only logical answer to the problem is less speed on the highways. It is speed that causes most accidents and it is speed that kills. But whenever a suggestion is made that lower speeds be made mandatory, there is a howl of protests. Too many motorists still insist upon the right to drive as fast as their machines can carry them over the highways.

Only when it becomes generally recognized that there is no other solution to the traffic problem except by reducing speed will any substantial advancement be made in solving a problem that is rapidly becoming the most vexing domestic problem that confronts the nation.

A maximum speed of 65 mph for day-time driving and 55 mph for night time driving, adequately enforced, would reduce traffic accidents. Further reductions in speed would even more sharply reduce the number of fatalities.

Words, Wit & Wisdom

By William Morris

Today's vocabulary test is based upon ten fairly common words. Most of them will give you little trouble but be on the watch for two or three tricky ones! All will prove valuable additions to your vocabulary. For each numbered word you will find a phrase of almost the same meaning among the three words and phrases following it. Thus, the word numbered 1 may mean practically the same as the phrase lettered c. Write this down as 1c.

When you have written down all the answers, check against the correct pairings at the bottom. Here is how we score the quiz: ten correct, excellent; eight to nine, superior; six to seven, good; five or less, poor.

1.—Insurrection: (a) doctrine of the Second Coming, (b) armed uprising against authority, (c) inability to pay one's debts.

2.—Exemplary: (a) serving as a good example, (b) completely superfluous, (c) not liable to tax.

3.—Paradox: (a) very great height, (b) geometrical figure, (c) fact that appears false.

4.—Propensity: (a) aptitude, (b) kinship, (c) state of being overtaken.

5.—Amnesty: (a) friendship, (b) pardon for wartime offenses, (c) peaceful co-operation between nations.

6.—Cadence: (a) rhythmic flow or movement, (b) military march, (c) kind of British sweetmeat.

7.—Staunch: (a) upright support in building, (b) steadfast, (c) posture.

8.—Cassidy: (a) causing trouble, (b) punishing severely, (c) reasoning cleverly but falsely.

9.—Efficacious: (a) kind of patent medicine, (b) producing desired results, (c) effeminate.

10.—Temerity: (a) timidity, (b) scorn of danger, (c) moderation in taste.

ANSWERS: 1b (in-ser-REK-shun), 2a (ek-ZEM-pluh-ree), 3c (PAR-uh-dox), 4a (proh-PEN-sih-tee), 5b (AM-ness-tee), 6a (KAY-dens), 7b (STAWNCH), 8c (kaz-yoo-ISS-ik), 9b (ef-ih-KAY-shus), 10b (teh-MEHR-ih-tee).

Questions and Answers

Q—Are there any Congressional Committees headed by Democrats in this Republican-controlled 83rd Congress?

A—Yes, the Joint Committee on Reduction of Non-Essential Federal Expenditures is headed by Sen. Harry Flood Byrd (D-Va.). Sen. Byrd has been Chairman of the joint committee since its creation in 1941. The idea for the Committee according to staff members, originated with then-Secretary of the Treasury Henry Morgenthau, Jr. Sen. Byrd then proposed its establishment in an amendment he offered to the Internal Revenue Act of 1941, which was adopted and which authorized setting up the committee.

The Doctor Says...

Severe Growing Pains Need Medical Attention

By EDWIN P. JORDAN, M. D. — Written for NEA Service

A puzzling problem is brought up by Mrs. R. who is worried about her 12-year-old granddaughter. This girl, the grandmother says, complains to her mother of pains in the legs and knees and is easily exhausted.

What Mrs. R. wants to know is whether this is serious or not and whether she should urge the mother to take more active steps for the young girl.

IT IS impossible to answer this question exactly, but it does raise the subject of those vague pains in the arms or legs usually called "growing pains" from which children so commonly complain. It is often a puzzling situation.

Many times it appears that these vague pains are of no significance, and it is possible that the youngsters have been growing so fast that their bones and muscles have not quite kept up their proper relations.

SOMETIMES THE curve of the spine may not be just right of flat feet or bow

legs are present and cause slight strains on the muscles or ligaments.

In mild cases plenty of sunshine, good food and time usually take care of the difficulty, although any obvious defect should of course, be corrected.

Serious abnormalities may be responsible in some cases. The help of an orthopedic surgeon in deciding whether braces or other special measures are necessary is then desirable. A few children with growing pains seem to have something wrong with one or more of their internal glands. When present, this requires attention.

OCCASIONALLY the pains may be caused by diseased tonsils, adenoids or sinuses. There is also a debate among medical men as to whether growing pains may be a mild form of rheumatic fever.

Certainly children who have severe growing pains which last for weeks or months should be examined by a physician to make sure that no permanent damage is being done and to find out what can be done to relieve the discomfort.

Merry-Go-Round

By DREW PEARSON

WASHINGTON—Sen. Tom Hennings of Missouri is proposing an investigation of the manner in which Val Lorwin of the State Department was indicted as a Communist only to have the Justice Department drop the indictment and fire the attorney who brought it. Lorwin was the only man on McCarthy's list of 81 State Department Communists ever indicted.

Since Hennings, a member of the important judiciary committee, is also the senator chiefly responsible for killing the Bricker Amendment, he will probably get the investigation. For some other members of the judiciary committee, including its chairman, Senator Langer of North Dakota, also believe that McCarthyist hysteria has gone too far and it's time to probe various unfair un-American infringements perpetrated under the cloak of preventing communism.

Of the many such, the two most glaring, currently, are:

1. The Lorwin case, where a Justice Department attorney, William Gallagher, informed a grand jury that two FBI men would testify against Lorwin, when no FBI men had any evidence. But because of this phony information, a man had to live for months under the stigma of an indictment.

2. The Federal Communications Commission's move to yank the Erie, Pa., television station of Ted Lamb, former attorney for the CIO and heavy Democratic backer, on the unsupported ground that Lamb was once a member of the Communist party.

INDICT AND RUN

The Lamb case and the Lorwin case have certain parallels. In each instance the government moved on political grounds and with practically no evidence. Then it went out to try to find the evidence.

Lorwin was indicted by Brownell last December, shortly after Brownell tried to pin the treason charge on Harry Truman in the Harry Dexter White case. It was a period when the administration seemed to be following a policy of out-McCarthying McCarthy. Prior to that time, not one of McCarthy's long and varying lists of State Department Communists had panned out. So Val Lorwin, formerly with the State Department, now with the University of Chicago, was indicted.

In the case of Ted Lamb, FCC Commissioner John Doerfer of Wisconsin, McCarthy's best booster on the FCC, was brazen enough to tell him: "Too bad you're not a Republican."

Possibly what he referred to was the fact that Lamb had contributed \$5,000 to the Adlai Stevenson campaign and was publicized by the Chicago Daily News as the top Democratic contributor in the nation. Now a millionaire and a very successful attorney, Lamb helped to organize the United Auto Workers many years ago.

Then, seeing the importance of radio-TV, he was one of the first to get into that field. His TV station in Erie is one of the oldest and most profitable in the country, has won countless awards for public service.

LOOKING FOR EVIDENCE

When the Communist charge was brought against Lamb, the conservative Toledo Blade, though competing against him for a TV station, commented:

"This newspaper, which undoubtedly is as well informed about what goes on in this community as anybody else, has never come across any evidence to support the accusation. . . . We will grant that one had to get up early in the morning to get the better of him (Lamb) in anything. But a Communist? Bunk!"

Nevertheless, McCarthy's friend, Commissioner Doerfer, and FCC colleagues took the unusual step of holding up Lamb's TV-radio license on the ground that he was a Communist. And having taken this drastic action, they then went out to get the evidence. So far they've had great difficulty.

Obviously they are using the same tactics as in the Lorwin case. Among other things they sent two investigators to Ohio with instructions to dig up anything on Lamb's political activities, any possible marital or income-tax troubles. They also interviewed a former Communist, Emmett Lee Wheaton Jr., of Lucas County, Ohio, together with a Negro named Bill Cummings.

It soon developed that it was Cummings who had originated the information that Lamb was a Communist.

"He stated," said ex-Communist Wheaton in his affidavit, "that while he, Bill Cummings was an undercover agent for the FBI he had sent in reports to Mr. McGrath (Howard McGrath, then attorney general) and in these reports they stated Mr. Lamb was a member of the Communist party."

\$1,000 FOR EVIDENCE

However, Wheaton, himself an ex-Communist, told the FCC probers that he had no information that Lamb had any Communist connections or had supported the Communist party. Various efforts were made to "jog" his memory, without success. Driving home afterward with Bill Cummings, the following highly significant conversation took place during which Wheaton was offered \$1,000 to refresh his memory.

"On the way across the high level bridge," Wheaton swore in his affidavit, "Cummings said to me, 'If you will let your memory remember Lamb's being at the Lincoln House on the platform and pledging to give money to the cause of the Communist party, it will be worth one thousand dollars to you and all your expenses paid if this goes to a hearing.'"

"I told Bill how I was utterly convinced that this whole thing was political and that I would certainly like to know whom he was working for."

Biggest Refinery In Europe Built By British And Yankees

By TOM A. CULLEN

LONDON —(NEA)— They did the impossible and stopped for tea.

Which is one way of saying that American-led British workmen completed the \$112,500,000 Fawley oil refinery, Europe's largest, six months ahead of schedule — and still clung stubbornly to their tea-drinking habit.

Fawley has been called the one bright spot in Anglo-American cooperation. It has proved that British workers, if properly led, can knock spots off production records. It has also shown how to get Britain off the American taxpayer's back.

Today, the Fawley plant near Southampton is processing 6,500,000 tons of crude oil a year from the fabulous sheikdoms of the Middle East — more than one-quarter of Britain's total needs.

It is also a big dollar-saver. By refining in Britain, instead of importing the finished product, Fawley is saving Britain \$2,000,000 a week, which is in line with U.S. policy of encouraging sterling countries to conserve their dollars.

To those who believe that Britain's best contribution to the free world lies in producing more

ANGLO-AMERICAN teamwork like this astounded the British.

planes, more television and better MG cars, Fawley is an object lesson.

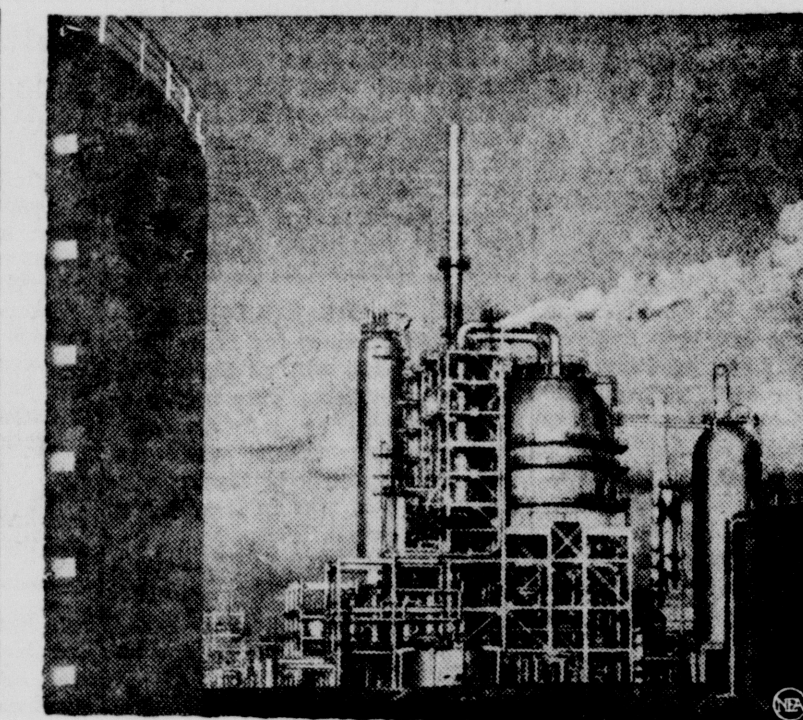

At Fawley the emphasis was on American "show-how" as much as on "know-how." And in showing an army of 5000 British workers how to get the job done, the 70 American supervisors broke every rule in the British handbook. Today, the American methods are required reading for British bosses.

Before the first scoop of earth was bulldozed, the entire project was planned down to the last nut and bolt, and targets set for each stage of construction.

A maintenance building the size of two tennis courts was prefabricated in New York and awaiting shipment before the Fawley site had been finally selected.

An entire concrete-making plant was shipped across the Atlantic.

As the work progressed there

EUROPE'S BIGGEST oil refinery, near Fawley, Eng., was built by British-American teamwork six months ahead of schedule.

were sharp "inquists" if any job fell behind schedule, sharper ones of materials looked like running low. Terse bulletins were posted wheeling, cajoling, sometimes bullying the workers into keeping schedules.

A standard basic rate was paid to all craftsmen regardless of their craft. There were no piece rates, but there were bonuses. Wages were high and workers who had to live "on site" were well provided for.

A single contract was signed between the contractors and the British Confederation of Shipbuilding and Engineering Trades Unions. Wherever possible the Americans dealt with union officials and not shop stewards.

The toughest job the Americans had to tackle was in trying to wean the British worker from his tea-drinking habit. "Brew-ups," as the British call the tea breaks, cost the Americans over 300,000 man-hours, according to

their estimates; but in the end they had to bow to English custom.

What do the "blokes" think of their Yankee bosses? Says a young English pipe-fitter: "They muck in. They don't ask you to do anything they wouldn't do themselves. English foremen are more like members of the white-collar classes."

And the Yanks — how do they size up the "blokes"? "They're first-class," draws a foreman from Texas. "All they need is to be properly led and properly treated."

Comments the London Daily Mail: "The enthusiasm and pride in the job shown by the Americans was infectious. Moreover, the American top men were always approachable; everyone was told what was going on, kept in the picture. . . . There are lessons here which our managements could learn with profit."

So They Say

The downward settling process has pretty well been slowed to a stop. We can look ahead to going forward again.—Ike's economic assistant Gabriel Hauge.

In Italy, public order is maintained not so much by legal force as by the prudence of the Communists.—Luigi Barzini, Italian writer.

As was anticipated by Prof. (Albert) Einstein some years ago, the development of the hydrogen and cobalt bomb has brought the extermination of human life on earth within the range of technical possibility.—Physicist C. F. Powell.

Let the chips fall where they may (Army-McCarthy squabble); let's have the facts.—President Eisenhower.

We, like many of our customers, are banking on steady, unbroken progress. To a large extent, this progress depends upon our collective optimism, enthusiasm and confidence in the future.—President F. H. Howe, Hubbs & Howe Co.

We might be better off as a party and a government to put primary emphasis of Communist investigations in the Department of Justice.—Sullivan Barnes, Young Republican Federation chairman.

Giving her (Beverly Nina O'Malley, 13-times divorced) a divorce is only turning her loose to do it all over again. Marriage seems to be a habit with this lady.—Los Angeles Judge Otto J. Emme.

I've been proposed to so many times I'd say "no" automatically to anyone who asked me.—Air Hostess Frances Drew.

I think there is a general realization that we need less headline hunters and more Eisenhower backers for the good of America.—Harold Stassen.

No sir, I don't need you (news-men) guys. I don't need your help. I can do very well without you. I have thousands who will tune in on the radio and listen to me tomorrow morning whether you write a story about me or not.—Arthur Godfrey.

Good Evening...

By CLINT DUNATHAN

JUST STAYING ALIVE—The question is no longer how a family can arrange to take a vacation, but how the family can avoid being taken when they go on a vacation.

As you may have noted, more than 500 Americans were "taken" or "called" or however you want to name it because they went on trips and holiday vacations over the Memorial weekend.

Most of them were taken in highway accidents and other drowned or were burned to death. The picture was quite gruesome and not one to send folks into shivers of anticipation for the upcoming vacation season.

Rather there is a dreadful aspect to the vacation scene in the United States. For people have the habit of pursuing pleasure with such fury and impatience that they run into and over each other, go down to the depths and drown, or set fire to themselves or others while having "fun."

There are so many annoyances and hazards in connection with vacationing and touring that it might be well to consider your leisure activities more thoughtfully than ever before.

WHILE AT HOME—According to the National Safety Council the home is one of the most dangerous places in the nation, so far as the incidence of accidents is concerned.

People slip and fall while bathing, tumble down stairs, fall off chairs or step-ladders, and otherwise make themselves hospital subjects by carelessness.

But there is merit to the idea of planning a stay-at-home vacation, since you will avoid the additional hazards encountered on the highway, at the beach, or on the lake or in the woods. And if you meet with accident while at home, you are closer to a doctor.

Perhaps the next safest place to vacation is at your private camp or cottage, where you can relax all day and all night if you are so inclined and the greatest danger is that someone will decide to visit you and spoil your sock-foot solitude.

MAKING PREPARATIONS—There is one danger difficult to avoid. Lightning has been known to strike people while they were sleeping in bed. The only tip we have on the subject is one we read several years ago: If you are playing golf during a thunderstorm, do not take refuge under a tree.

Obviously this applies only to golfers and caddies. To those who seldom or never frequent the golf course the above advice is of small benefit.

There are certain preparations that should be made if one (to repeat a cliché) intends to enjoy his vacation "to the utmost."

There are pests in this northland other than the unexpected guests at camp. There are insects such as mosquitoes, ants, wood ticks and black flies.

Unless preparation is made to defend yourself against their attentions, your vacation is not likely to be enjoyable. And if the pests are really numerous, no amount of preparation will help much except to sit inside and keep the pests outside.

Such a maneuver spoils the fun for everyone—including the mosquitoes.

SAFETY FIRST—Insect pests are never fatal in their attacks, but there are other hazards sufficiently serious to merit your attention.

One of these is drowning, an action always resulting in death. Because when you drown you are dead. It is only the "apparently drowned" who are restored to life by artificial respiration.

First rule to follow in avoiding drowning is to avoid the water. There are few cases on record of death by asphyxiation in water without water.

Second rule is to approach the water cautiously and not to wade in over your head unless you intend to, which is called suicide.

Third rule is to keep your head out of the water, either by swimming furiously or by being supported by life jackets, water wings, or an overturned boat.

In connection with swimming there is a form of recreation called sun-bathing, which many people do very well in a bathing suit without risking any danger other than sunburn. The best relief for sunburn is to come in out of the sun before you are burned, an age-old remedy followed by only a few people.

Fact is that vacationers seldom follow any of the safety first advice offered them. That's why vacationing is such a dangerous form of recreation.

UNCLE EF

Now that the gardening season is in full swing, the Reverend Passmore is wondering if he'd better go from house to house with his Sunday sermon.

League Of Women Voters Reports On City Affairs

Questions concerning authority for establishing salaries paid Escanaba city employees, and the use of utility profits to finance city government, are subjects of explanation in an open letter prepared by the League of Women Voters of Escanaba. The letter follows:

Editor
Escanaba Daily Press
Escanaba, Michigan
Dear Sir:

In a recent letter to the editor it was suggested that the city manager pays beginning clerks too high a salary, and that the profits from the utilities should have been set aside each year so that they would be available now to build a new electric generating plant. The League of Women Voters would like to provide some facts and figures gathered in their studies, and by attendance at City Council meetings, which should help Escanaba's citizens to draw their own conclusions about these suggestions.

The city manager can only recommend pay schedules for city employees. According to our city's present charter, which was adopted by the people of Escanaba in 1921, the city manager is responsible for the efficient management of the city's affairs. But the Council must make the final decisions on all city policies, appointments and ordinances. Council also decides how much money is spent to run the city, and where that money is spent.

Council's Authority
In the spring of each year, the city manager must submit a tentative budget to the Council, which they study item by item. The Council has the power to accept, reject, or change the amount of any item in the budget. This year, the budget review took place during a series of meetings from May 4th to May 12th, which were open to the public. A public hearing was held at the regular Council meeting on May 20th. At this time, as the newspaper stated, any interested citizen could appear and voice objections to any part of the budget as approved by the Council.

How does this affect the pay schedules for city employees under Civil Service? This really goes back to 1940, when a former Council approved Civil Service for all city employees except department heads and appointees of the Council. That Council hired

the Michigan Municipal League to set up the job classifications and to recommend pay schedules to the Council. Each time the employees have asked for a raise, the Civil Service Commission and the city manager have made a recommendation to Council, after study from both the budget angle and the employee angle. For instance, in the most recent petition for an increase, the recommended pay increase was about 2.7%. The public works employees asked for a 6% increase, and on May 20th, Council voted to give them a 4% increase. This was a blanket raise for all employees under Civil Service, including the beginning clerks. After July 1, 1954, and until Council adopts a new budget, the city manager must hire and pay all city employees under Civil Service the 4% increase granted by Council.

Helps Pay Operations

People have often questioned the use of the net profits from the utilities for city expenses. Why wasn't this money set aside to build a new generating plant? However, as soon as they look into the matter they find that it is not a simple problem. Money to operate the city comes from three main sources: from the state, from the city property taxes, and from the money we pay on our utility bills. In recent years, about one third of city revenue has come from each source.

Our monthly utility payments must first pay for running the plants and providing us with the gas, water, electricity or steam we buy. These utilities all pay taxes

to the city, and interest on the capital investment the city has made in the plants and equipment. The amount of profit left is called the net profit.

Should our Council choose to set aside the net profits for future building they have three ways to get that amount from city taxes. They may raise the local tax rate to the maximum allowed by law; they can ask the people to vote money for a special project such as the gas plant or the interest on the water filtration plant bonds (this amount is listed on your tax bill as Debt Service); or they can increase the assessed valuation of all property in the city.

Or Higher Taxes

Let us see what happens when we take the figures for the fiscal year 1952 and talk about the net profits from the electric utility only. That year, about \$172,000 in net profits were used to help run the city. If this money had not been used for city expenses what increase in taxes would have been necessary to replace this money. Had Council raised the tax rate to the maximum allowed, they would have collected only about \$15,000,000 more than the \$238,000.00, (approximate) they actually did collect. Voting money for special projects would be only a temporary solution when the money is needed for the general fund. This method was used before 1922 and found unsatisfactory. The only other thing they could have done would have been to increase the assessed valuation of all properties. To make up the \$157,000.00 (\$172,000.00 - \$15,000.00) they still lacked, the assessed valuation would have had to be increased by 65.73%. This was not done, of course, but let us see what would happen to an individual tax bill if it had been done. Suppose the taxpayer owned property assessed at \$3,000.00. He paid, in 1952, at the rate of \$17.44 for \$1,000, assessed valuation that

year, and his tax bill was \$52.32. His tax bill would have been figured like this if tax rate and valuations both had been increased:

Present assessed valuation	\$3,000.00
65.73% inc. necessary	1,971.90
New assessed valuation	\$4,971.90
Maximum tax rate allowed \$	17.50
per \$1,000	
Debt Service that year	1.054
	18.554

Total tax rate \$18.554 per \$1,000
New tax bill would have been \$92.23

In addition to the increase in his city tax bill, the taxpayer would also be paying his county and school taxes on the increased valuation shown above, or on \$4,971.90 instead of \$3,000.00.

Profits Over \$1½ Million

This is the problem that has faced our Councils. The solution over the years has been to use the profits from the utilities in order to avoid the increase in taxes as shown in our example above. Since 1940, a total of \$1,561,069.48 net profits from the electric

THE BIG HELLO—Crew members of the USS Saipan line up on the carrier's deck to spell out Minasan Konichawa (hello, everyone, in Japanese). The carrier was holding open house in Nagasaki.

utility have been used to help pay for services provided by the city. Amounts for each year, and the detailed figures used in our hypothetical tax bill of \$92.23 are available to any interested person who wishes to contact the League of Women Voters of Escanaba.

We write this letter in accordance with the League principle that information assembled by us should be made available to everyone. The individual must

know the facts before he can make an intelligent decision as to what is good or bad in our city government.

We invite any interested women to come to our meetings and to join in our studies and discussions of local, state, and national items of interest.

Very truly yours,
Mrs. Donald Ickes, Secretary
League of Women Voters
of Escanaba,

Allied Cemetery On Russian Soil

MOSCOW (AP)—A five-man official party representing the United States, Britain, Pakistan, Canada and Norway headed for the Arctic tundra country outside Murmansk Tuesday to dedicate June 3 the first Allied military cemetery in the Soviet Union.

Four Americans, 20 Englishmen and three Pakistanis who lost their lives in supply convoys runs to the Soviet Union in World War II are buried in a small cemetery at Murmansk.

Capt. Willard Sweetser of the Navy represents the United States. The four Americans buried there were N. MacLeod, seaman, who died Dec. 24, 1943; Russel Bennett, seaman, who died April 12, 1942; James O'Brien, wiper, a victim the same day, and Maurice Liebman, messman, who died April 15, 1942.

They died in Murmansk after surviving the actual convoys.

Premier Wins 12

ROME (AP)—The Christian Democrat party of Premier Mario Scelba has won elections in 12 of 16 Italian communities which voted for local officers Sunday. Communists and their socialist allies won the other four.

More people get more news from newspapers than from all other sources combined.

Building Trend Down In City

The trend in new building construction in Escanaba, not including a new public grade and special education school, is down in Escanaba this year compared to the first five months of 1953.

Building permits issued from the office of the city clerk reveal that estimated costs of new construction, remodeling and repairs in Escanaba to June 1 are far below those for the same period last year.

To date this year the total estimated costs of new construction in the city for which permits were issued, totals \$76,500, compared to \$259,900 for the same period in 1953. (This year's figure does not include the \$486,000 public grade school.)

The decline in new home construction is particularly apparent. Last year \$130,500 of the new construction value was in homes, compared to \$49,000 for new home building so far this year.

Most of the building permits for this year were issued during the month of May. The totals were \$30,000 for five homes, \$20,800 for non-residential building, and \$1,100 for repairs and alterations.

Permits for new homes were issued in May to the following: Clarence T. Kleiman, to build at 1110 S. 16th St.; Roy DeGrand at 915 S. 17th St.; Ben Looeden at 1427 N. 16th St.; Martin Krogstad and Harry Fitzgerald on Willow Creek Road.

Non-residential building included a motel permit to Ray St. Vincent at 620 N. 23rd St., 18 feet wide and with a total length of 156 feet; and to the Clark Oil Company for a gas station at 1329 N. 21st St.

Reckless Driving Costs Youth \$100

Michael John Ring, 19, of Cornell, today pleaded guilty in Justice Caroline A. Nystrom's court to a charge of reckless driving and paid a fine of \$100 and costs of \$5.

Ring was ticketed by Escanaba police following an accident March 30 in which Melvin Jacobsen of Wells was severely injured. The accident occurred at the intersection of 1st Ave. N. and 9th St.

Coffee Bargains Lead To Detroit Burglar

DETROIT (AP)—Allen Carr, 54, of Detroit, was arrested Tuesday because housewives in a northwest residential area became suspicious over the bargain prices he offered in coffee and cigarettes.

Police, summoned by the housewives, found besides the merchandise in Carr's truck, a sledgehammer, drills and other potential burglarly equipment.

He was offering cigarettes for \$1 a carton and coffee at 50 cents a pound.

The Military Sea Transport Service carried nearly two million passengers in 1952.

Honors Awarded To St. Joseph Seniors

Honor awards at St. Joseph High School were presented today during the class day program for 1954 by Rev. Stephen Schneider, O.F.M. The awards and winners follow:

Catherine Bonifas Scholarship—Marilyn Winter, valetictorian of the class. It is one of the four awards provided by the will of Catherine Bonifas to be given students entering college. Three of these are given Escanaba Senior High School and one St. Joseph's. It is in recognition of the highest average in studies, character, leadership and devotion to Christian ideals.

Daughters of Isabella Award—Joyce LaFave, salutatorian of the class. The Daughters of Isabella present a gold watch to the girl ranking second highest in scholarship, character and leadership.

Knights of Columbus Award—Robert Vachon. The Knights of Columbus award a gold watch to the boy ranking in scholarship and leadership.

Honor Student Awards—Shirley Mannebach, Marlene Winter and Joyce Ann Jacobson. The Holy Name Society, Ladies' Altar Society and the Booster Club present pen and pencil sets to three honor students.

Science Award—Mary Manning. A science award is presented to the girl who has shown exceptional progress in science during the four years of high school.

Mathematics and Science Award—Robert Vachon. A Gold Medal, presented by the Detroit Alumni of Rensselaer Polytechnic Institute, is given the boy showing

high proficiency in mathematics and science during four years.

Herff-Jones Plaque—Marilyn Winter. She has the honor of having her name engraved on the Herff-Jones Plaque for maintaining the highest average in studies.

Houghton Engineering Scholarship—Robert Vachon.

Denis McGinn Plaque—William Maycunich. He has the honor of having his name engraved on the Denis McGinn Plaque for athletics and general proficiency.

Gold Keys, presented to students rating high in various subjects:

Commercial Work—Barbara Bink.

Language—Shirley Boudreau, Marilyn Winter and Marlene Winter.

History—Mary Manning.

Journalism—Marlene and Marilyn Winter.

Jean LaBranche was awarded a dictionary for competing in the Upper Peninsula Forensic Festival at Marquette and receiving a superior rating at that time.

Choir awards were given for regular service as a choir singer for four years to Barbara Bink, Joyce Jacobson, David Hirn, Mary Manning, Anne Geigel, Marilyn Johnson, Evelyn Faussner, Joyce LaFave, Patricia Rooney and Joyce Winling. David Hirn received a special choir award for services rendered for singing the proper of the Mass for the past three years.

Jewel Sodality pins were awarded to senior sodalists of the Sodality of Our Lady who held offices the past two years. Pins were given to Patricia Rooney, prefect; Mary Manning, vice prefect; Joyce Jacobson, secretary, and committee chairmen, Marie-Anne Barron, Anne Geigel, Shirley King, Shirley Boudreau, Kay MacLean and William Maycunich.

Special Religious awards were presented by the Third Order of St. Francis to the student in each class who best learns, and as far as can be judged, best lives up to his religion during the year. This award is meant to emphasize, first, that religion is the most important subject in the curriculum, and second, that just learning it is not enough—living up to it is even more important. The awards are

Chicago Prices

Salable sheep 1,000; two loads good and choice mixed old crop lambs and yearlings with No. 2 skins \$20.00; deck good and choice 87 lb. lambs with No. 1 skins \$21.00; good to prime native spring lambs \$24.00 to \$27.75; few slaughter ewes \$5.00 to \$6.00.	

Wall Street

NEW YORK (AP)—The stock market edged ahead a little in the early afternoon today despite considerable irregularity in the movement of prices.

Both gains and losses went to around a point, with the gains predominating in most major divisions.

Business was at a pace right around Tuesday's 1,850,000 shares. Texas Pacific Land Trust was up between four and five points.

Others gaining included Baltimore & Ohio, Texas Co., American Tobacco, American Cyanamid, Homestake Mining, Commonwealth Edison, Boeing, Douglas, and Bendix.

Lower were Bethlehem Steel, Studebaker, Santa Fe, General Electric, Philco, and Schenley Industries.

U. S. government securities were lower.

Atomic Ouster Appeal Filed By Dr. Oppenheimer

(Continued From Page One)

two statues of the Sacred Heart in priestly vestments and two four-volume sets of the St. Andrew daily missal.

Senior class winner—Eleanor Derocher (choice of award)

Junior class winner—Gary Paineau (choice of award)

Sophomore class winner—Mary Anne Chouinard (choice, if any)

Freshman class winner—Lillian LeBlanc

Although there is no award, the name of the runner-up in each class is announced.

Senior class—Marilyn and Marlene Winter

Junior class—Jean LaBranche

Sophomore class—Mary Ottensman

Freshman class—Rita Milkovich and Kathleen Randall

An award of a colored photograph was presented to Shirley Boudreau for the most attractive modest formal at the Junior Prom by the Fighting 69th.

An award of \$5.00 was given to Marilyn Winter for the best submitted 500 word essay on "Vocations." The contest was sponsored by the Sodality during March.

While conceding that he did oppose going ahead with H-bomb research while the matter was in the discussion stage, Oppenheimer has insisted that he dropped that opposition after President Truman ordered a go-ahead on the project in 1950.

"ACCIDENTAL PRESIDENT"

John Quincy Adams was nicknamed the "Accidental President" because he received 13 of 24 electoral votes cast and many felt this majority of one was an accident.

commission by Gray and Morgan dealt with 24 charges, apparently investigated by the FBI, against the scientist who was in technical charge of creation of America's—and the world's—first atomic bomb.

Twenty-three of the charges alleged such things as this: that Oppenheimer loaned his name to Communist fronts, contributed hundreds of dollars toward Communist causes, admitted belonging to practically "every Communist front on the West Coast," was the husband of a one-time party member and the brother of another, associated with West Coast Red leaders as Steve Nelson.

The 24th charge accused him of opposing in 1949 the development of the H-bomb on moral and technical grounds and, after the project was launched, continuing to oppose it.

The board of education reserves the right to reject any or all bids.

Ford River Township Schools

Escanaba Women At Presbyterian National Meeting

Three Escanaba women, Mrs. Roger Schultz, Mrs. Earle Harris and Mrs. James Bell, are attending the national meeting of Presbyterian Women on the campus of Purdue University, Lafayette, Ind. The meeting runs from June 1-7.

Mrs. Schultz is the local Association president and Mrs. Harris is a Presbyterian elder. Mrs. Bell, the wife of the pastor of the Presbyterian Church here, will serve as a recorder for one of the discussion groups during the meeting. Over 3,000 women will attend the meeting.

"Christ is the Way" will be the theme for the week's meetings and a distinguished group of men and women will appear on the speakers' platform. Among them are Dr. John Mackay, past president of the General Assembly and president of Princeton Theological Seminary; Dr. Louis Evans, minister-at-large of the Board of National Missions; Mrs. James D. Wyker, president of the United Church Women; Dr. Ganse Little, president of the Board of Christian Education; Dr. Charles Leber, general secretary of the Board of Foreign Missions; Dr. Eugene Blake, State Clerk of the General Assembly; and Miss Cornelia M. van Ash van Wijck from the Netherlands, formerly president of the World Y.W.C.A.

Music during the week will be under the direction of Mrs. Rosa Page Welch, who recently returned from a musical mission to Japan, the Philippines, Thailand, Pakistan, Africa, the Near East and Portugal. The choir from Maryville College, Maryville, Tenn., will participate in worship services.

Many women missionaries who are on furlough this year will be attending the gathering, among them the secretary for women's work in India and another from the most distant mission field of Thailand.

The dramatization of a three-act play promises an interesting evening. Though the film and television rights had been sold, the author permitted the best selling book to be dramatized for this

Presbyterian national meeting.

One of the most popular spots will be the gift shops where significant articles from national and foreign mission stations can be bought.

The Escanaba women who are attending this Presbyterian National Meeting will motor to Lafayette with Mrs. Vera McEachern of St. Ignace.

Briefly Told

Marriage License—Application was made for a marriage license by Richard T. McMartin, 1012 Washington Ave., and to Patricia Mae LaMarch, 1428 N. 16th St.

Drivers Ticketed—Escanaba police have issued traffic violation tickets to the following motorists: William Gaffney, 605 S. 16th St., defective tail light; Anthony Orzel, Sylvan Point, allowing an unlicensed minor to operate his car.

POWERFUL SUN
Engineers calculate that, in the tropics, the sun lavishes on a single square mile during an eight-hour day, energy equivalent to that released by the combustion of 7400 tons of coal.

Pension Benefits May Be Increased More By Senate

(Continued From Page One)

their survivors, also would get bigger monthly social security checks, with maximum payments rising from \$85 to \$108.50 for a single worker and from \$127.50 to \$162.75 for a retired worker whose wife is past 65. Maximum benefits payable to any one family would be boosted from \$168.75 to \$200 a month.

Retired persons up to the age of 75 also would get a better break on outside earnings.

They now lose social security benefits for any month in which they earn \$75 or more. The proposed changes in the law would let such pensioners earn up to \$1,000 a year. Above that sum, a person would lose benefits for any month in which he earned more than \$80.

There is no limit on earnings allowed those above 75.

Army Dentist Invents 'No Shake' Thermometer

WASHINGTON, D. C.—An electronic clinical thermometer which takes your temperature in five seconds flat has been developed by an Army dentist.

This is less time than it takes to shake down the mercury in the glass rod thermometer. Also, the conventional type requires three minutes to reach maximum temperature.

Colonel George T. Perkins, director of the dental division of the Army Medical Service Graduate School here, developed the new thermometer, the "Swifttem," the first innovation in the field since 1867. It is being presented to medical and allied professions by the Medical Research and Development Board, U. S. Army.

How much time and manpower can be saved by such a quick-reading thermometer was demonstrated during a four-month test in an Army hospital.

Only one-fourth of the time normally required to take daily ward temperatures was needed when the Swifttem was used.

There are additional advantages.

The electronic thermometer is much easier to read, since degrees are registered in numerals on a meter just as speeds are indicated on a speedometer.

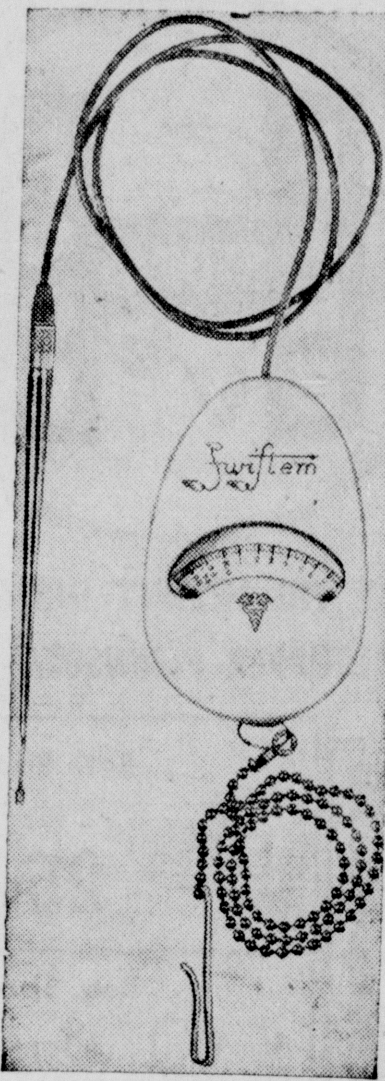

A greater degree of accuracy can be obtained, for the new instrument is unaffected by extreme temperature changes, humidity and pressure.

Moreover, glass is subject to so many kinds of structural change that of 75 conventional thermometers checked during tests only 25 proved accurate. These inaccuracies are so commonplace they are recognized and permitted by Federal specifications.

There is no breakage and less loss with the electronic thermometer.

Another advantage is the elimination of malingering. When temperature can be taken almost instantaneously, the patient who is faking has no opportunity to raise the recorded degrees by judicious use of cigarette lighter or match.

The new instrument is lightweight and fits easily in the palm of the hand. In appearance and size, it resembles a photographic light meter. Its operation is controlled by push button.

ELECTRONIC thermometer developed by Army dentist is easy to read, won't break and gives accurate reading in five seconds.

trolled by push button.

The sensing device or probe, attached by a transmission cord carries an electronic device which resists heat and translates this resistance in terms of degrees on the meter. The action is similar to the way an ammeter on an automobile dashboard records electric current flowing to and from the battery.

Probes are easily detached for sterilization and are designed for oral, rectal or skin temperatures. Since the length of the transmission cord in no way alters the efficiency of the electronic thermometer, it will be possible for a nurse to remain at her desk and take a patient's temperature in the next

room. This would be advantageous in therapy where constant check of skin temperature is advised.

Perkins, a native of San Antonio, Tex., now lives at (1518 Red Oak Drive) Silver Spring, Md. An amateur radio operator for 15 years, he read an article in 1951 in a popular magazine on thermistors—the sensing device of Swifttem—which led to his experiments. Later the project, with Perkins in charge, was taken over by the Medical Research and Development Board.

RING-NECKED DUCKS SHOWN ON STAMPS

WASHINGTON—The Interior Department expects to sell 1,000,000 1954-55 migratory bird hunting stamps showing two ring-necked ducks (Nyroca collaris) in flight.

The ring-necked duck is also known as "ring-bill" or "black-jack," says the National Geographic Society. The ring on the neck is actually an obscure marking of older males. But both sexes have two conspicuous bands of white on the bill. The head, foreparts and back are black, the sides light gray. Few ducks can equal the ring-neck's speed. It is a medium-small duck, breeding from Saskatchewan to western Ontario and south to northern Nebraska and Iowa. It migrates as far as the Gulf of Mexico.

Suffer Appendix Attacks Same Time

MERIDEN, Conn. (AP)—Winslow Chase, 13, was operated on for acute appendicitis. Within a few hours, his brother, Glendon, 15, became ill at a private school 100 miles away and rushed here. He too was operated on for acute appendicitis by the same surgeon and at the same hospital.

HINT TO MOTORISTS

The best place to regain the road when your right front wheels run off the edge into a soft shoulder is at a point where the road and shoulder are at approximately the same level.

ESCANABA DAILY PRESS
Wednesday, June 2, 1954

LETTER GOES SOUTH

LA HABRA, Calif. (AP)—Roland Martone mailed a letter to Dewey Linze, an adventure-bound journalist, last July 28. It was addressed to South America. Somehow the letter went to South Pasadena to South Gate to South San Francisco and then to Iquitos, Peru. Last week the letter was returned to the sender.

Martone put it in an envelope to Linze, readdressed it, added a note: "Don't want to open your mail. Please let me know what I said I forgot."

New Floor Care Ends Waxing

One of the most difficult jobs of housekeeping is to keep linoleum and asphalt tile floors waxed and gleaming. Now, thanks to Glaxo, it is no longer necessary to wax and scrub. All you do is apply Glaxo with a brush about twice a year. It maintains a high lustre, non slip coating that seals out dirt. Glaxo dries in one hour and is water clear. It's cheaper than wax in the long run, besides saving a terrific amount of work, plus truly a beautiful floor. Glaxo is available at the Fair Store, Escanaba. (Adv.)

JOB OPPORTUNITY PATROLMAN

The Escanaba Civil Service Department announces an examination for the position of Patrolman.

Starting Salary \$264.00.

Annual increments up to \$286.00.

City employees receive paid vacations, sick leave, paid life insurance, paid hospital insurance, pension rights, and other benefits and privileges.

Duties: A patrolman is responsible for the enforcement of laws and ordinances, prevention and detection of crime, and preservation of order. Work generally consists of patrol work in cruisers or on foot. Requires exercise of independent discretion in emergency circumstances and may involve an element of danger.

Number of vacancies, 2.

Residence requirements, one year of continuous residence immediately preceding June 7, 1954.

Last day for filing applications, June 7, 1954.

Minimum qualifications, applicants must have completed the twelfth school grade or have an equivalent combination of education and experience, shall be not less than 23 nor more than 33 years of age, shall be not less than 5'8" nor less than 140 pounds, and be able to meet other prescribed physical requirements.

AN OPEN LETTER TO ARTHRITIS SUFFERERS

Mr. S. Bailey

122 Jay Street
Saginaw, Michigan
May 19, 1954

O-Jib-Wa Medicine Co.,
2101 S. Saginaw Street
Flint 3, Michigan

Dear Sir:

I am writing this letter for my husband, as we want you and others to know what O-Jib-Wa Bitters has done for him. He suffered about three years with rheumatoid arthritis and tried everything, including about a thousand dollars worth of shots with no results. He also had his teeth out, but that didn't help either. He was disgusted with everything. He sets tiles for a living and could not get on his knees to work. He could not get in or out of the bath tub without help, and his ankles were swollen so that we had to cut his socks to get them on. Nothing he tried or did helped him at all.

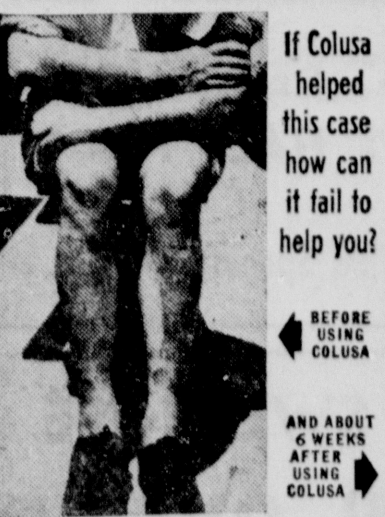

One night I saw an advertisement in the paper for O-Jib-Wa Bitters. I asked him to try it and told him if it didn't help, it at least wouldn't do any harm, and we might as well spend a few cents more and see what it would do. I got a bottle from the drug store and in two weeks he had good results. That was five years ago, and today at 69 years of age, he is in good health and works everyday.

My husband wouldn't be without a bottle of O-Jib-Wa Bitters in the house. We have several of our friends using it, as well as my mother, and they are all happy about it as we are. We can't say enough for your wonderful medicine, and will be glad to have anyone come and talk with us about O-Jib-Wa Bitters, or will answer any letters. You may use this statement at any time, as O-Jib-Wa Bitters is the greatest medicine we ever heard about.

Yours truly,

Mrs. S. H. Bailey

Earth's Powerhouse In Space Is The Sun

WASHINGTON—In the warming weeks of spring, baseball takes over the sports pages and car dealers sell more convertibles — two lesser ways that man is affected by the glowing star he calls the sun.

Sunlight and sun's heat control all life upon the earth. Out of the blazing furnace 93,000,000 miles away in space, very likely, this planet was born.

Plant life takes its power for growth from the sun's rays. Animals subsist in turn upon plants. The earth is warmed by the sun, and under its touch, water evaporates from the seas and falls again as rain.

These are the essential gifts of earth's white-hot neighbor, the National Geographic Society says. But there are other effects of its radiations as well. Some are only barely suspected.

Rhythms in Heartbeat

Before the National Academy of sciences in Washington recently, Dr. Charles G. Abbot, 82-year-old physicist and former Secretary of the Smithsonian Institution, reported evidence of variations in human pulse rates that seem to have a definite statistical relationship to a well-established cycle of solar variation.

This cycle, based upon a period of 22 years 9 months, may also produce regular changes in the weather. Dr. Abbot has devoted a lifetime of study to such cyclical variations in the power of the sun and the related appearance of sunspots upon its face.

Sunspots are known to be caused by giant explosions of energy in the burning mantle of Old Sol. Although they have been observed for centuries, only in recent decades have their effects upon the earth begun to be understood.

When sunspots appear on the rotating orb, radio engineers brace themselves for severe interference to long-range broadcasts. Navigators at sea are warned of magnetic storms that may affect their compasses.

Northern Lights

Closely linked to sunspots are the spectacular polar auroras, rippling lights that appear in the

night skies in high latitudes. Glowing weirdly far above the earth in electrified upper regions of the atmosphere, these "northern lights" are caused by intense currents spouting from the sun's face in the region of the sunspots.

Shooting through space much like streams from a gigantic lawn sprinkler, the beams rain down upon the earth with tremendous energy. A day later, they may be gone.

More constant forms of radiation from the sun give motive power to the weather by creating roaring winds in the high atmosphere, as well as little-understood conditions of temperature, and layers of electrified gases.

Finally, without the gravitational force which the sun unceasingly exerts upon the earth, not only this planet but the entire solar system would fly off into outer space. Robbed of the sun's life-giving rays, the earth would be a frozen ball of rock and ice hurtling through endless night.

Dog Was Very Well Trained

GRAND ISLAND, Neb. (AP) — A man in here has a dog who likes to greet visitors rather boisterously. And the chap himself confuses them.

Seems the master quiets his pet with the command: "Don't bite him—until I tell you to."

Edward Frappiers Celebrate Their Silver Wedding

Mr. and Mrs. Edward Frappier, whose marriage took place in Escanaba 25 years ago, were honored at a silver wedding anniversary party Saturday evening at their home, 1605 N. 20th St., attended by over 100 relatives and friends.

The guests danced to the music of the "Lumberjack Band" and later were served a buffet supper. Red roses and white carnations were effectively arranged in the table decorations with the centerpiece, a three tiered wedding cake topped by a silver emblem.

Mr. and Mrs. Frappier were presented with a gift for their home and Mr. Frappier presented his wife with a birthstone ring.

The couple was married at St. Anne's Church in Escanaba June 4, 1929. Their attendants at the wedding were Mr. and Mrs. Ted Frappier.

Their family includes four daughters, Mrs. Len (Dora) Case of Chadron, Neb., Mrs. George (Doris) Nielsen, Denver, Mrs. Joseph (Genevieve) Powers, Rockford, Ill., and Mrs. Don (Vivian) Lewis of Escanaba, and five grandchildren.

Among the out of town guests were Mr. and Mrs. Joseph Powers of Rockford, Mr. and Mrs. Vern Sturdivant of Wells, Mr. and Mrs. Charles Eigegret and Mr. and Mrs. Charles Borden of Gladstone, Douglas Lewis and Katherine and Laurel Lenbach of Milwaukee, Mr. and Mrs. Fred Childers and Floyd Williams of Pontiac, Mr. and Mrs. Russell Lewis of Mount Pleasant and George Goert, Bark River.

Personals

Mr. and Mrs. Matt Clark, Escanaba Rte. 1, attended the funeral services for Mrs. Joseph LaForais at Republic and continued on from there to the Copper Country where they spent the weekend.

Mr. and Mrs. Vallard Falkingham have returned to Minneapolis following a holiday visit with her parents, Mr. and Mrs. Edmund Day, 1708 Ludington St.

Mr. and Mrs. Jerome Schmidt have returned to Milwaukee following a holiday visit with Mrs. Schmidt's parents, Mr. and Mrs. Walter Wicklund, 1005 Sheridan Road.

Mrs. Z. J. Derouin, 1223 N. 21st St., and Mrs. Walter Dion of Lake Linden, who is visiting with her sister, Mrs. Derouin, left today for Marinette where they will visit several days with a sister and brother.

Dudley A. Lund of Kinross, visited over the weekend with his mother, Mrs. Arthur Lund, 626 N. 20th St.

Miss Eva Peterson of Menominee visited at the home of her parents, Mr. and Mrs. John Peterson, 524 S. 15th St., over the weekend.

Misses Shirley Dault and Velma Meyers of Schaffer left today for Chicago where they will seek employment during the summer months.

Mr. and Mrs. C. G. Perry of Appleton and Mr. and Mrs. J. Jensen of Green Bay have returned home after visiting during the past weekend at the home of Mrs. Margaret Rouse, 816 S. 15th St.

Mrs. J. J. Gaffney, 905 1st Ave. S., and Mrs. Irwin Gibbs, 2614 Lake Shore Drive, have returned from a two week's visit in New York City with Mrs. Gaffney's son and daughter-in-law, Mr. and Mrs. George Gaffney, and family.

The Matthew Smiths Welcome First Child

A daughter, Catherine Mary, was born May 31 to Mr. and Mrs. Matthew Smith, 1705 Lake Shore Drive, at St. Francis Hospital. She weighed 6 pounds and 15 ounces at birth. The baby is the Smiths' first child and the first grandchild in both families. Mrs. Smith is the former Arlene Severinsen. The maternal grandparents are Mr. and Mrs. Herbert Severinsen, 409 S. 7th St. Mr. and Mrs. Stack Smith, 1705 Lake Shore Drive, are the paternal grandparents.

Friendship Club Meeting Thursday

The Friendship Club, newly organized group for men and women of the community over 50 will meet Thursday at 8 p. m. at Club 314. Hobbies not exhibited at the last meeting will be shown and other entertainment will include dancing and cards. Refreshments will be served. All residents of the Escanaba area interested are invited to attend.

To make a sugar sirup for sweetening fruit you are canning, boil sugar and water or fruit juice for five minutes and remove the scum, advise Michigan State College home economists. A heavy sirup can be made by using a cup of sugar with one cup of water or juice. A medium sirup recipe calls for a cup of sugar with two cups of water or juice and a light sirup will come from three cups of fluid with one cup of sugar.

Women's Activities

OMICRON CHAPTER of Sigma Sigma Sigma named Miss Barbara Carroll of 713 5th Ave. S., Escanaba, as the outstanding senior of the year at Michigan State Normal College, Ypsilanti. Barbara served as president of the chapter during the past year.

Camp Fire Girls Will Hold Final Council Fire Tonight

The Bay de Noc Council of Camp Fire Girls is holding its final council fire this evening at Pioneer Trail Park. Honors will be awarded for the year, and rank taken by those who have fulfilled the requirements for the rank toward which they have worked throughout the year.

Trail Seeker, the first rank, will be taken by Joan Rumpa, Dell Jean Lagerquist, Mary May Johnson, Mary Wickham, Phyllis Hayes, Elizabeth Slough, Martha Cole, Mary Grace Casimir, Patty Moore, Linda Lagerquist, Kathy Wilbee, Mary Cook, Darlene Williams, Sandra Gustafson, Barbara Kozar, Emily Derouin, Darlene Dufour, Mary Jo Kuehn.

Earn Second Rank
The second rank taken by a Camp Fire Girl is the Wood Gatherer's rank. Girls who have

Junior Film Festival Plans Are Announced

Complete arrangements for the Junior Film Festival which will be held during vacation months at the Escanaba theatres under the sponsorship of the Escanaba Parent Teacher Council were announced today by Mrs. Glenn E. Matheson, Council president.

The 13 films selected, 11 of which will be shown, are "Five Little Peppers and How They Grew," "Hills of Home," "The Yearling," "Young Tom Edison," "Gallant Bess," "Down to the Sea in Ships," "Story of Alexander G. Bell," "Young Mr. Lincoln," "Penrod and Sam," "Adventures of Robin Hood," "Jackie Robinson Story," "Arctic Fury" and "Mickey."

The dates, to be announced later, will be between June 20 and Labor Day. The shows will be matinees at 2 on Wednesdays. Series tickets may be purchased by the children at either theatre 10 days, either in the afternoon or evening, beginning Monday, June 7. Parents who wish to accompany their children may do so by purchasing a regular matinee ticket.

It is possible that the matinee series will be continued on Saturdays after the reopening of school.

smorgasbord supper was served to 100 guests by Mr. and Mrs. Ewald Nelson and Mr. and Mrs. Dick Nelson and their committee.

Social-Club

Miss LaCoursier Becomes Bride Of Charles Kelly

The Rev. Thomas Anderson solemnized the wedding of Miss Beverly A. LaCoursier of Hermansville and Charles H. Kelly of Faithorn at 9 a. m. Saturday, May 29, at St. Mary's Church, Hermansville, before an altar adorned with gladioli of pastel shades.

Miss LaCoursier is the daughter of Mr. and Mrs. Matt LaCoursier, Hermansville, and Mr. and Mrs. James Kelly of Faithorn are the parents of the bridegroom.

The choir of St. Mary's Church sang the music of the wedding mass, and they were accompanied by the organist, Mrs. Leo T. Doran.

Tulle and Satin

The bride's gown of nylon net and tulle over satin was fashioned with a bodice of imported Chantilly lace, long tapered sleeves and a Queen Anne collar with a cathedral length train extending from a bouffant overskirt. She carried a pearl bracelet rosary, a gift of the bridegroom. Her fingertip length veil was caught to a bonnet of nylon net and seed pearls. She carried a cascade bouquet of white carnations.

Bridal attendants, Miss Barbara Johnson and Miss Eva Maga, wore identical gowns of light blue and yellow net over tulle and tulle with fitted bodices and full skirts. Jackets of nylon net over tulle in matching colors completed their ensembles. Each attendant wore a pearl necklace, gifts of the bride. They carried colonial bouquets of blue and yellow carnations.

A brother of the bride, Robert Kelly, served as best man, and groomsmen was Alphonse LaCasse. Acting as ushers were Jerry

Kelly and Edward Johnson. Mrs. LaCoursier attended her daughter's wedding attired in a powder blue suit with white accessories. The bridegroom's mother wore a dress of navy nylon net over pink tulle complemented with pink accessories.

Reception at Home

A wedding dinner and reception for 200 guests was held at the home of the bride's parents. The bride is a graduate of Hermansville High School, and the bridegroom graduated from Norway High School.

When the newlyweds left on their wedding trip to Minneapolis, the bride was attired in a pink and navy suit with pink accessories. They will make their home at Hermansville upon their return.

Out-of-town wedding guests attended from Milwaukee, Menominee, Detroit, Green Bay, Norway, Daggett, Stephenson, Manitowoc, Wis., and Powers.

Church Events

Bethany Choir Practice
The Senior Choir of Bethany Lutheran Church will practice Thursday at 7:30 p. m.

Immanuel Meetings
Immanuel meetings Thursday are confirmation classes at 4, Junior Choir at 5 and Church Choir at 7:15 p. m.

Covenant Service
A midweek service will be held at the Ev. Covenant Church Thursday at 7:45 p. m.

No matter what you buy, you should allow sufficient time to make a selection without rushing. This is especially true when buying foundation garments. Never buy a girdle or bra without trying it on. Knowing your size will not do, since sizes vary according to styles and manufacturers.

Amazing New Safe Discovery Makes REDUCING EASY

SCIENCE NOW HELPS YOU TAKE OFF YOUR FAT WHILE YOU EAT THE FOODS YOU CHOOSE
FRIENDS! Let Me Ask You a Simple Question
Are you too fat because you eat too much? Would you like to lose fat but you just can't control your appetite and like to eat too much of the wrong kind of food? Do you like sweets, candy, cake and are you a real glutton when it comes to butter, gravy, potatoes? Have you tried one thing after another to reduce, spent dollar after dollar for pills and tablets and in spite of everything you've tried you're still too fat?

AT LAST! A CAPSULE THAT EQUALS A MEAL OF VITAMINS, MINERALS AND BULK

Just recently a well known scientist perfected a new tiny capsule that combines not one but ALL THE RECOGNIZED proven aids to reducing he found in all the advertised products offered today. It contains the concentrated proteins you've read and heard about. It combines the vitamins and minerals often lost when cutting off fattening foods containing these needed vitamins and minerals. It combines the vegetable cellulose that has no calories yet expands when it absorbs water, thereby helping to give the feeling of a full contented stomach. Yet these tiny capsules contain not just one but ALL the drugless reducing aids he found to be needed to actually automatically make you eat less without conscious effort and like it! In fact, these tiny capsules are so packed with vitamins and minerals, protein and non-caloric filling food, they actually equal and exceed many a meal.

Counteract Hunger
Yes, All-in-One Reducing Capsules are as filling, as hunger satisfying, as rich in vitamins, minerals and fat consuming protein as many a meal. When you take All-in-One Reducing Capsules, you not only don't want to eat, but you also get the very vitamins, minerals and fat consuming protein you need for health, for energy, for rich, red blood, for that wonderful feeling that comes from eating a delicious, satisfying meal of well chosen food.

Television Scans Techniques For Home Nursing

Because 65 million Americans get sick and are cared for at home, the Red Cross, in Houston, Tex., is testing TV as a means of mass education in making patients comfortable and aiding their recovery. The Red Cross, Houston University and Station KUHT-TV sponsored a series of 13 half-hour programs, featuring a professional nurse who demonstrated elementary nursing skills to the public. The program was designed for the overburdened housewife who couldn't leave her house to attend regular classes. Courses were designed to teach her the technique of caring for the sick without wearing herself out, how to make improvised equipment and how to prevent the spread of infection to the rest of her family. Psychologists at the university are testing effects of the course, with an aim toward expanding it if results prove successful.

TV cameras don't frighten this teacher as she demonstrates one way to raise a patient to a sitting position. Nurse and patient lock arms and then nurse gently lifts without straining herself.

ABOVE: Students practice with an improvised "steam inhalator." Steam pours out of a kettle, through a spout of rolled newspaper, and into the enclosure which has a sheet above the patient's head.

RIGHT: Learning how to make a bathrobe from a bedsheet is easy. The sheet is folded back at the collar and cuffs and pinned properly. More warmth can be had by using a blanket.

China Reds Outline World Revolution To Wind Up In 1973

WASHINGTON (AP)—Congress has been shown a document—purportedly submitted to Moscow by the Chinese Communists—predicting that by 1973 "world revolution will be an accomplished fact."

The memorandum, according to Senate majority leader Knowland (R-Calif.), purports to outline Chinese Communist leader Mao Tse-tung's program for revolution. Knowland inserted the document in the Congressional Record recently without disclosing where he obtained it.

Supposedly taken to Moscow in March 1953 by Chinese Foreign Minister Chou En-Lai, before the Korean war ended, the document says that "until we are certain of victory" a course leading to war should be avoided.

It says the United States should be "isolated by all possible means."

The paper predicts: Communist victory in Indonesia in two years, with Burma and Thailand joining the Red orbit soon after.

A "peaceful revolution" in Japan by 1960 with a "mere show of force" by the Soviet Union and China.

By 1965, possibly, Communist control over India by "peaceful means," then alliances with the Arab countries and The Philippines, followed by revolution "over the whole continent of Africa."

With Asia and Africa "disconnected with the capitalist countries" in Europe, total economic collapse to follow in Europe with capitulation there a "matter of course."

"Crushing economic collapse and

industrial breakdown will follow the European crisis," the memorandum continues. "Canada and South America will find themselves in the same hopeless and defenseless condition."

"Twenty years from now, world revolution will be an accomplished fact. If the United States should ever start a war, she would do so before the liberation of Japan, the Philippines and India."

Long Lost Bible Back To Owner

HAMMOND, Ind. (AP) — Police Capt. Namon Dimitroff lost a pocket New Testament 36 years ago while in Greek Macedonia visiting his home town of Dumbeny.

The other day the book arrived at his home by mail. An enclosed note from a Greek soldier said he had found it on a street in Volos, Greece, which Dimitroff did not visit. Capt. Dimitroff had written his Hammond address inside the Bible.

Southern Crooks Were Brooklyn Boys

RICHMOND, Va. (AP) — The facts, ma'am, are that the men were from Brooklyn. Detective Chief John Wright hopes this takes Richmond off the hook.

Wright came into the case when Mrs. Norman Mann of Ontario, Canada, reported she and two friends lost more than \$1,000 in luggage, clothing and jewelry when thieves in Richmond rifled their car. Subsequently, Mrs. Mann wrote the local chamber of commerce to note that the robbery seemed a poor advertisement for southern hospitality.

The detective bureau had news

for Mrs. Mann. Her property had been recovered in Washington and was hers for the identification. Two men were arrested, Brooklyn boys, Ma'am.

Develops 168 Kinds Of African Violets

MOLINE, Ill. (AP) — Starting with eight African violets three years ago, Mrs. R. Victor Hanks, has converted her home into a nursery with 168 varieties of violets growing under fluorescent lights. She has 18,000 plants arranged on racks in the basement. The 75 lamps over the racks burn 16 hours a day, she says the plants need the 8-hour rest.

BIDS WANTED

The City of Escanaba will sell to the highest bidders the following described pieces of equipment:

- Caterpillar, Crawler Tractor, with cab, Model 32, Gasoline motor.
- Gray Marine Motor, 6-cycle, 90 H.P.
- Hale (C.D.) Fire Pump; 500 g.p.m.; 120 lb. pressure; 6 cylinder, Chrysler Motor.
- Pick-up Box; suitable for 1/2 or 3/4 ton truck.
- Steel wheel Fertilizer Spreader.
- Chicken Coop, located on city property at south end of Airport on M-35 (same shall be dismantled and removed by successful bidder).
- Bicycles.
- Bicycle Frames.

All equipment except chicken coop may be inspected at the city garage, North 8th St.

Sealed bids will be received in the office of the undersigned until 11:00 a. m. (E.S.T.) on June 15, 1954, at which time said bids will be publicly opened and read aloud in the council chambers of the city hall.

Each item for sale shall be bid on separately, and the envelope containing said bid shall be plainly marked with the piece of equipment that is bid on.

A deposit of ten (10%) percent of the bid price shall accompany each bid to assure faithful completion of the sale. Deposits of the unsuccessful bidders shall be returned. The full amount of the price bid shall be paid before equipment is turned over to the successful bidder.

The City of Escanaba reserves the right to reject any or all bids, or any part of any bid, and to waive any irregularities in the bidding.

George M. Harvey
City Clerk

JOB OPPORTUNITY FIREMAN

The Escanaba Civil Service Department announces an examination for the position of Fireman.

Starting salary, \$259.00.

Annual increments up to \$281.00.

City employees receive paid vacations, sick leave, paid life insurance, paid hospital insurance, pension rights, and other benefits and privileges.

Duties: A fireman is responsible for the protection of life and property from fire. The work includes the performance of hazardous tasks under emergency conditions when fighting fires. A large portion of the time is spent in the care and cleaning of fire equipment, quarters and the city hall.

Number of vacancies: 2.

Residence requirements: One year of continuous residence immediately preceding June 7, 1954.

Last day for filing applications: June 7, 1954.

Minimum qualifications: Applicants must have completed the tenth school grade or have an equivalent combination of education and experience, shall be not less than 5'8" nor less than 140 lbs. and be able to meet other prescribed physical requirements.

CITY OF ESCANABA

Extra Defense Billion Asked

WASHINGTON (AP)—President Eisenhower Tuesday asked Congress for extra defense appropriation of \$1,100,000,000 for military construction.

The only indication of just where the money would be spent came in the White House announcement that \$503,000 of the total would be used for Army construction of a communications system in Alaska.

Murray Snyder, assistant presidential press secretary, said the overall amount includes the expense of construction sites for Nike guided missiles, and for troop housing.

Legislation to authorize the military construction work and family housing projects now is pending in Congress. The President's request today was for Congress to provide the money, once the projects are authorized. It would be used in the fiscal year beginning July 1.

Cemetery Lot Makes Man Property Owner

SOUTH BEND, Ind. (AP)—Harry Polomsky and John J. Pinkowski Jr., will remain on the ballot as Democratic candidates for county assessor. The law says candidates must own real estate.

Polomsky qualified when he proved he owned one-seventh interest in a cemetery lot. Pinkowski then discovered he also qualified. He owns a whole cemetery lot.

The apparent position of stars in the sky is materially altered by the bending light rays which pass through the earth's atmosphere.

WANTED TEMPORARY OFFICE SPACE

State agency will lease for a six to 12 month period beginning July 1st, 1954, approximately 2000 to 2400 square feet of office space in Escanaba, Michigan within reasonable walking distance of main business area.

Offers accepted thru June 7, 1954.

Address replies to Michigan Employment Security Commission, 1323 Ludington Street, Escanaba, Michigan.

Surprise Party
A group of friends and relatives gathered Monday night at the home of Julius Desotelle to help celebrate the birthday anniversary of his brother, George Desotelle.

Games were played during the evening. In cribbage first went to Neil Snow of Gladstone and second to Leo Christoff of Rapid River. In canasta Rose Kessick of Gladstone was high and Daniel LaPalm of Danforth second. In another game Sharon LaPalm was first and Joyce Kessick second. Lunch and refreshments were

Out Our Way

GLADSTONE

IT'S A LAND-LOVER NOW—This swimming dock, equipped with pontoons, once used to float in Grand Lake, near Grove, Okla. But it is now landlocked as a result of the severe drought

that moved the lake's shore line. The springboards now extend over weeds that grow where the water was once 20 feet deep.

Scientist Plans Trouble For Defiant House Fly

By EDWARD S. KITCH
URBANA, Ill.—The house fly is getting harder to kill because of his increasing tolerance to spray insecticides, but he dies after eating a new potion devised by Willis N. Bruce, associate entomologist of the University of Illinois.

The scientist reports his syrup-sweetened compound of organic phosphate has proved extremely deadly to flies during a year of tests. The new technique in control of the house fly is reported in a special bulletin of the Natural History Survey Division of the University.

The manufactured compound is called Bayer L 13/59. A bit of it mixed with water and syrup was painted on partitions, door edges and posts of a calf barn.

City Briefs

The Warren Wades have moved from Route 1, Ensign, and are now residing at South Gladstone.

Mr. and Mrs. Roger Anderson and children, Jimmy and David, left Monday to return to their home in Milwaukee after spending the Memorial weekend here and in Rapid River at their parental homes.

Mrs. John Skoglund, Manistique, visited over the weekend at the Fritz Skoglund home.

Tom Aos has returned to Lansing following a holiday visit at the home of Mr. and Mrs. Ross P. Davis. His wife and son are remaining here with her parents until the end of the week.

Miss Helen Jean Thivierge and guest, Miss Ann Dickeman returned to Chicago on Tuesday following a weekend visit with Mr. and Mrs. Arthur Thivierge, parents of Helen Jean.

Miss Frances Sowa and brother Edward visited on Memorial Day at the home of Mr. and Mrs. Jerome Waeghe.

The Misses Kay DeHooghe, Barbara Berg, Nance Martin, Mary Ann Hoffmann and Beatrice Bruso spent the Memorial Day weekend at their parental homes. The girls are employed in Milwaukee.

Mr. and Mrs. Roy Eldridge are the parents of a son, Kelly Joseph, born Saturday afternoon at St. Francis Hospital. The baby, the first child in the family weighed 4 pounds and 7 ounces at birth. Mrs. Eldridge is the former Mary Alyce Krout, daughter of Mr. and Mrs. Cleve Krout.

served at the end of the evening. The guest of honor received many nice gifts.

Out-of-town persons attending the party were Daniel LaPalm and Gala, Sharon and Harland of Danforth and Mr. and Mrs. Leo Christoff of Rapid River.

By J. R. Williams

Meeting Thursday To Plan Reunion

A meeting for the purpose of furthering plans for a reunion of the Class of 1934 is scheduled for Thursday evening at 8:15 at the home of Mrs. Mel Nolan, 716 Dakota Ave. The reunion will be held the early part of July.

Harry Rajala, student at the NMCE, Marquette, visited at his parental home over the Memorial Holiday.

CARD OF THANKS

We wish to express our heartfelt thanks to neighbors and friends for their kindness, assistance and sympathy during the illness and subsequent death of our beloved husband, father and brother. We are particularly grateful to those who sent spiritual or floral offerings, to Father LaViolette for his consoling words, to Father Coignard for his prayerful visit, to the Brotherhood of Locomotive Firemen and Engineers, to those who offered autos for the services and to all others who by word or deed assisted us at this time. The memory of these kindnesses will long remain with us.

Signed:

The Family of
Joe Shandony

Troopers Ticket Traffic Violators

Six Canadian auto haulaway drivers were ticketed for excessive speed with semi-tractors and trailers by Michigan State Police in a Memorial Day weekend drive on traffic violators.

Included in the list were Raymond J. Potter of Regina, Saskatchewan; George Bartlett of Weyburn, Saskatchewan; William Lester of Rolling Hill, Alberta; Ross T. Seaman, Sceptre, Saskatchewan; Peter Warkington, Groulx, Manitoba, and Mike Komermiski, Toronto, Ontario.

Richard Donahue, Route 1, Bark River got a ticket for failure to stop for a stop sign and excessive noise; Ernest J. Lavigne, Escanaba, was booked for failure to stop for a red traffic light; Robert B. Mitchell Jr., Escanaba, for failure to stop for a through highway; Richard Koster, Escanaba, for excessive speed and Douglas R. Moore, Lansing, for excessive speed with a two-wheel trailer and failure to have a trailer license.

Special Guard Meet Saturday

Members of the Manistique National Guard unit are being notified to appear for special activity at 8 a. m., Saturday, according to announcement by Capt. E. J. Doyle.

They will be taken by truck to the Sportsmen's Club rifle range where the first activity will be the qualifying of all new members and those who have not qualified in the past three years in marksmanship. Tests will be made with M-1 carbines, M-1 rifles and 45 cal. sub-machine guns.

Following the qualifying in arms, a class in the erection of a gin-pole will be conducted.

The company will be bivouac for the night and scouting and patrol work will be given. Use of the compass at night will be a part of this phase of instruction.

The company will be returned to headquarters Sunday morning. Meals served throughout Saturday and on Sunday morning will be under the direction of the company stward, Pfc. Leo Rivard.

Local Members Of Jehovah Witness To Attend Assembly

Manistique will be represented by a delegation of fourteen at the Circuit Assembly of Jehovah's witnesses to be held in the Memorial Building, 42 North Stevens Street, Rhinelander, Wis., Arvid Carlson, presiding minister here, announces that the group will join more than 600 other ministers in their three-day convention beginning Friday, June 4.

A. A. Catanzaro of New York will be the featured speaker of the event. He will appear on the program all three days and will deliver the main public address at 3 p. m., Sunday, June 6. His subject is "Is Civilization's End Near?"

Lightning Nearly Rings The Bell At Bouschor Home

The home of G. Leslie Bouschor, at 415 Walnut Street was struck by lightning some time Monday evening but no damage resulted.

The lightning hit a tree close to the house, left a trail along the ground, and climbed up the side of the house as far as the button on the door bell. The path was clearly defined.

The Bouschors were not at home at the time the lightning struck and found out about it the next morning.

Thompson

THOMPSON — Mr. and Mrs. Warren Chambers, of Pontiac, visited recently with Mr. and Mrs. Lewis Cox.

The Martin Cousineau family, of Lansing, spent the holiday weekend at the Harry Hastings home. Mrs. Cousineau and Mrs. Hastings are sisters. Brenda Cousineau remained to spend several more days at the Hastings home.

Mr. and Mrs. Ronald Kelly and family, of Battle Creek spent the weekend at the Rogers home here.

Mrs. Floyd Cox and Mr. and Mrs. Russell Minor, of Cooks, motored to Tomah, Wis., to visit Floyd Cox who is a patient at the Veterans Hospital there.

Mr. and Mrs. Ernest Steinoff and family, of Munising, visited at the home of Mrs. Steinoff's parents, Mr. and Mrs. Floyd Sample.

Mr. and Mrs. George Jarvis has returned from Whitefish Point to spend several days in their home here.

Mrs. Ernest Hoholik is a patient in Schoolcraft Memorial Hospital. Mr. and Mrs. Jack Runyan and sons, of Pontiac, are spending several days at the home of Lewis Cox. He is a son of Mrs. Cox.

Mr. and Mrs. Wally Arnold and family, of Battle Creek, are visiting here with their parents, Mr. and Mrs. George Arnold.

State Police Crack Down On Traffic Violators

The Manistique area passed through the Memorial Day weekend without a single motor mishap of consequence sufficient to require its reporting to the state police.

In view of the fact that traffic was the heaviest of the year and weather conditions—particularly Monday evening—were a serious handicap to safe motoring, this is something of a record, says Sgt. Nick Modders of the Manistique state police station.

Sgt. Modders adds, however, that this record is all the more remarkable in view of the fact that the number of arrests for traffic violations was unusually high.

There were 26 arrests for violations over the weekend, the state police report. Driving at excessive speed caused most of these arrests and the violations in this respect proved to be particularly numerous among truckers. Trucks and auto haulways, restricted to a speed of not over 50 miles per hour were clocked in congested areas and several were found to be driving at close to 60, complaints show. One auto haulway was found to be driving at over 65 miles per hour.

Other offenses charged were failure of trailer trucks to yield right of way, speeding through towns, passing on hills, curves and other places where clearly marked "no passing" lines were clearly marked on the highways. There was but one arrest for defective brakes and not one arrest for drunk driving.

State police concentrated on the highways while the rush was on, Sgt. Modders explains, and paid particular attention to hills, curves and other places where accidents are most likely to occur.

Assisting in this patrol was a special trooper in an unmarked car who was on the job in the daytime of Sunday and Monday. This special car, Modders explains, operates on Highway U. S. 2 between St. Ignace and Wakefield, spending a week with each post along the highway.

Twilight league pairings for Thursday afternoon matches at the Indian Lake course Thursday afternoon are as follows:

Inland vs. Top O Lake—V. Dufour-V. Hentschell A. J. Cayia Sr.-R. G. Hentschell

Leon Heinze, 537 Park Ave. Assistant hostesses will be Mrs. Roy LaMarche, Mrs. Fred LaBrasseur, Mrs. James Lambert, Mrs. Fred Lesica, Miss Mary Lesica, Mrs. Gerard Heinz, Mrs. Karl Jacobs, Mrs. Laura Belanger, Mrs. Josephine Creedon and Mrs. Josephine LaVigne. All members are urged to attend.

Golden Star — The Golden Star Lodge will meet Thursday at 8 at the home of Mr. and Mrs. Maurice Hellsten, US-2.

St. Jude Circle—St. Jude Circle will meet Thursday, June 3 at the home of Mrs. Arthur Halvorson, Mrs. Milton Bunker assisting. All members are requested to be present.

Softball Association—There will be an important meeting of the officers, board of directors and team managers of the Softball association Thursday evening at 7:30 at the Matthews accounting office.

Lady Foresters—There will be a hostess committee meeting of the Lady Foresters Friday evening at 8:15 at the home of Mrs. Leon Heinze, 537 Park Ave. Assistant hostesses will be Mrs. Roy LaMarche, Mrs. Fred LaBrasseur, Mrs. James Lambert, Mrs. Fred Lesica, Miss Mary Lesica, Mrs. Gerard Heinz, Mrs. Karl Jacobs, Mrs. Laura Belanger, Mrs. Josephine Creedon and Mrs. Josephine LaVigne. All members are urged to attend.

Son Of Former Local Resident To Be Ordained

Ordination into the Catholic priesthood of John Joseph Eichlin, son of Mr. and Mrs. Eugene J. Eichlin of Ferndale, will take place at the Blessed Sacrament Cathedral in Detroit on the morning of Saturday, June 5 with the ordinance conferred by His Eminence Edward Cardinal Mooney, D. D.

The young priest will offer his first solemn mass on Sunday, June 6 at the Church of Our Lady of LaSalette in Berkley.

Mrs. Eichlin, mother of the candidate for the priesthood, is the former Agnes McLeod, of the John McLeod family, former operators of the Hiawatha Hotel, in this city. He is also a cousin of Mrs. Earl H. LaBrasseur, who plans to attend the ceremony in Detroit this weekend.

The banquet to follow the matches will be served by the Inland team.

Car Strippers Were Thorough

OMAHA (AP)—Police reported car strippers tried to steal the horn of a car, but couldn't budge it so they settled for the horn button. They also took the engine, radio, heater, gear shift assembly, transmission, muffler, battery, fender skirts, three hub caps and three tires.

PARENTAL INFLUENCE? SEDALIA, Mo. (AP)—Dale Maggard missed only one word in all his spelling tests at Mark Twain school this year.

The word was "Insurance." His father, Charles Maggard, sells insurance.

Funny Business

By Hershberger

Gym Stunt Night Thursday-Friday

Gym night, when members of Manistique High school gymnasium classes—the boys under the direction of Coach Rudy Brandstrom and the girls under the direction of Miss Helen Mickelson—make their bow, will be held at the new gym Thursday and Friday evenings.

Tumbling acts, acts on the high bars and parallel bars and various forms of acrobatics, some of which are a near approach to circus acts, will be performed by the boys while gym stunts, folk dancing and games will be presented by the girls.

Members of the more advanced students will be particularly spectacular.

Practically every boy and girl in the high school will participate in this activity.

This is one of the most popular presentations of the school year.

Briefly Told

Grange Meeting — Birthday Grange will hold a meeting at the Grange Hall on Thursday evening.

Choir Practice—The choir of the Bethel Baptist Church will meet in the church tonight at 8:30.

Golden Star — The Golden Star Lodge will meet Thursday at 8 at the home of Mr. and Mrs. Maurice Hellsten, US-2.

St. Jude Circle—St. Jude Circle will meet Thursday, June 3 at the home of Mrs. Arthur Halvorson, Mrs. Milton Bunker assisting. All members are requested to be present.

Softball Association—There will be an important meeting of the officers, board of directors and team managers of the Softball association Thursday evening at 7:30 at the Matthews accounting office.

Lady Foresters—There will be a hostess committee meeting of the Lady Foresters Friday evening at 8:15 at the home of Mrs. Leon Heinze, 537 Park Ave. Assistant hostesses will be Mrs. Roy LaMarche, Mrs. Fred LaBrasseur, Mrs. James Lambert, Mrs. Fred Lesica, Miss Mary Lesica, Mrs. Gerard Heinz, Mrs. Karl Jacobs, Mrs. Laura Belanger, Mrs. Josephine Creedon and Mrs. Josephine LaVigne. All members are urged to attend.

Son Of Former Local Resident To Be Ordained

Ordination into the Catholic priesthood of John Joseph Eichlin, son of Mr. and Mrs. Eugene J. Eichlin of Ferndale, will take place at the Blessed Sacrament Cathedral in Detroit on the morning of Saturday, June 5 with the ordinance conferred by His Eminence Edward Cardinal Mooney, D. D.

FAMILY DINNER

Here are directions for the best breaded veal chops you ever tasted!

Tomato Juice
Breaded Veal Mashed Potatoes
Chops*
Snap Beans
Salad Bowl
Bread and Butter
Cookies
Beverage

BREADED VEAL CHOPS*

Ingredients: 4 center loin veal chops (each about 1/2-inch thick), 1 egg, 2 tablespoons buttermilk, 1/2 teaspoon salt, pepper, 2 to 3 tablespoons flour, 1/2 cup fine dry bread crumbs, 2 tablespoons butter or margarine.

Method: Roll end of each chop together pinwheel-fashion and skewer to meet part of chop with a toothpick. Put egg in small shallow dish; beat with fork enough to combine yolk and white; blend in buttermilk, salt, and pepper to taste. Put flour on one side of work board; put bread crumbs on other side. Dip a chop in flour, then in egg, and last in bread crumbs; with wide spatula, place on waxed paper. Dip remaining chops the same way. Heat butter in 10-inch iron skillet; arrange chops in skillet and cook slowly until golden-brown on bottom side — about 19 minutes; turn and brown other side the same way. Place cover on skillet (it should not fit tightly) and cook slowly about 15 minutes; turn chops once if necessary to cook evenly. Remove cover and cook slowly until very tender — about 10 minutes longer. Remove toothpicks. Serve at once. Makes 4 servings.

Chapmans Observe Fifty Years Of Married Life

Mr. and Mrs. Julius B. Chapman, of 100 Arbutus Ave., observed the 50th anniversary of their marriage at their home yesterday afternoon.

The event was observed quietly with open house to their friends and with all of their children and grandchildren present to help them celebrate. A three-tiered wedding cake with appropriately colored icing formed the centerpiece for the luncheon table from which guests were served throughout the afternoon.

Mr. and Mrs. Chapman were married on June 1, 1904 at the Presbyterian Church with Mrs. Chapman's sister, Mrs. W. C. Miller and Mr. Chapman's brother, William Chapman as sponsors.

For the past fifty years, with the exception of a short time spent in Gladstone, they have resided in Manistique. Throughout most of his active years Mr. Chapman followed the trade of carpenter and for several years, up to recently, he has been janitor at Lincoln school.

They are the parents of five children, a son, Roger Chapman, of Manistique; four daughters, Mrs. James Longnecker, Flint; Mrs. Willis Garner, Cleveland, O.; and Mrs. John Matthews and Mrs. John Stroud, of Manistique.

Both are enjoying good health and are active for their advanced years.

Bouche, of Munising and Mrs. Margaret Jones, of Pellston, visited Sunday with Mr. and Mrs. Claude Wendland, 209 Range St.

Mrs. Anita Cambridge, of North Bend, Ore., is visiting here with her sister, Mrs. Emma Tassier, at the Wendland Convalescent Home.

Mrs. Mary Hudson, of Cedarville, visited here over the weekend with her mother, Mrs. Emma Tassier at the Wendland Convalescent Home.

Mrs. Anna Gauthier, N. Cedar St., is a surgical patient at the Schoolcraft Memorial Hospital.

Mr. and Mrs. Willis Garner, daughter Barbara, and son Tom of Cleveland, Ohio, were guests Monday and Tuesday at the J. B. Chapman home.

Our Boarding House

Major Hoople

Carnival

By Dick Turner

In This Corner

With Ray Crandall

This belated spring weather is raising hob with our sports schedules. . . . Baseball, softball, golf, stock car racing and all other athletic activities are being curtailed by the unseasonable cold that sticks with us. . . . Fans and players alike were shivering at last night's softball-baseball attraction at Memorial Field.

The Escanaba Bears, who made a successful debut in their first start as an "independent" team by beating Bark River 5-1 Monday, will soon have a full season schedule of games to announce. . . . Manager Bob Dufour says that teams from throughout the Upper Peninsula have contacted him seeking dates with the Escanaba club.

Last year, National Golf Day, such as is being conducted at the Escanaba Golf Club this week, grossed over \$100,000 throughout the country. . . . Besides its other distribution of the funds, \$25,000 was furnished for caddie scholarship funds.

Sault Ste. Marie, 1954 Upper Peninsula track and field champion, dominated the spring sport in the Upper Peninsula like few teams have done in the past. . . . The Blue Devils won the Class B crown, the Great Lakes Conference title and the Memorial Day Relays. . . . The Devils were undefeated in all competition this spring.

Do any readers know what the authentic national high school record for consecutive baseball victories is? . . . We've had reports that a New York team holds the all-time prep record with either 43 or 47 straight. . . . Any other info available will be greatly appreciated.

We've been unable to pick up anything on the progress of Rusty Hiltonen who at last report was pitching for Danville in the Carolina League. . . . However, Danville is currently in fourth place in the Class B loop standings with 17 victories against 14 losses.

Northland Bread And Merchants Post Wins To Remain Unbeaten

Only two teams remained unbeaten in the American Softball League last night after the Northland Bread and Merchants teams posted victories.

Northland won its second straight by handing Harnischfeger its first loss, 5-1. The Merchants also posted win No. 2 by beating Clairmont Transfer 7-3.

Harnischfeger was the victim of a neat three-hitter by Ken Dufresne on the mound for Northland. The first hit for the Harnies was a long triple to the fence by

Orioles, Fans Are Going Down

BALTIMORE (P)—The Baltimore Orioles have crept back into the cellar again and their attendance, which is the main item of interest in the American League this first season, has been dropping with them.

The gate still is good, a total of \$99,006 for an average of 19,950 on 20 home dates. That's more than the club drew in St. Louis all last season and also more than paid to see the Philadelphia Athletics in 1953.

But when the season started, the Baltimore club was 1,800,000, which takes an average of 29,000. The Baltimore average dropped below 20,000 for the first time Tuesday.

The Orioles have lost 12 of their last 14 games, and have fallen from fifth place in the process.

Art Ehlers, the Oriole general manager, demonstrated Tuesday he won't wait around for the old St. Louis Browns to come through. He traded outfielder Vic Wertz for Bob Chakales, a comparatively young pitcher on the Cleveland Indians.

Wertz has hit only .202 and has been riding the bench lately. The Indians have used Chakales in only three games and he was credited with two victories.

L&R PRACTICE

There will be a practice session for the L&R baseball team in the Babe Ruth League at Royce Park diamond Thursday evening at 6:30 p. m. All players must report.

Spartans Satisfied With Grid Schedules

By JOE FALLS

DETROIT (P)—It was somewhat surprising when Duffy Daugherty, Michigan State's new and affable head coach, stood up and said:

"Contrary to some reports, we at East Lansing are satisfied with the 1957 and 1958 schedules drawn up at the recent Big Ten meetings. They could not have been fairer."

Daugherty, speaking Tuesday at a meeting of the Michigan chapter of the Football Writers' Assn. of America, took no offense to the Big Ten schedules in that two-year period which gives Michigan State six conference home games to 10 for Michigan.

"After all," he added, "it's good business to play in Michigan's vast stadium. The 65-mile trip to Ann Arbor doesn't bother us."

Buddy Parker, coach of the Detroit Lions, had the least to say at the meeting.

"I've said enough about the all-star game this summer," Parker stated. "Whether we'll play one or two games to two platoons is up to our league commissioner, Bert Bell, and to Arch Ward, who runs the show. I'll tell you this, though: whether we play six-man football or two-man football, we'll be there."

Fritz Crisler, Michigan's athletic director, was asked about the problem of television. He said:

"We hope the coming NCAA track meet in Ann Arbor will be a large success. If the turnout of fans is good enough, we'll go after the Olympic trials. We'd like to have one outstanding track meet a year at Michigan."

'Beat Ben Hogan' Play Is Set For Escanaba Course

National Golf Day will be observed at the Escanaba Golf Club on Thursday and Friday of this week, with all golfers of the area invited to take part in the effort to "Beat Ben Hogan", it was announced today by T. D. Vinette, president.

The National Golf Day program, widely promoted by Life Magazine, will be conducted throughout the country with Ben Hogan playing the field on the rugged Baltusrol (New Jersey) course which will be the scene of the 54th Open Championship tournament June 17-19.

All scores, with accurate handicaps, will be matched against the score posted by Hogan, last year's Open champ. Hogan will fire his score on Saturday.

McNicoll In Charge
To take part in the National Golf Day tournament, contestants must pay \$1 to be contributed to the National Golf Day fund and a greens fee at the Escanaba Golf Club. Pro Jim McNicoll will be in charge of entries and any additional information will be available at the golf shop.

All golfers who top Hogan will receive "I Beat Ben Hogan" medals and this year Life Magazine will send special certificates to those who tie Ben's score, and

Ben Hogan

thing to show for it.

The program is open to all comers, men and women alike. Even the occasional golfer who has no set handicap can play on a fair basis with a specially determined handicap.

Baltusrol Is Tough

The funds collected from National Golf Day are split in two for contribution to the USO and the National Golf Fund. Entire proceeds are given to the two organizations.

The Escanaba course will be available for open play all day

Thursday and Friday. Contestants must sign up with McNicoll before competing.

Hogan's score will be announced Saturday afternoon at which time contestants will learn how they have fared against the Open champion. All contestants must play 18 holes.

Baltusrol, where Hogan will be shooting, is regarded as the "most exacting" course in existence. Par for the 7,027-yard course is 70 but experts doubt that in the Open tournament this year a 290 score will be bettered.

L&R Wins, Elks And AFL Tie In Openers

The AFL and Elks battled to a 3-3 standoff and L&R Sport Shop nipped Kiwanis 10-8 in Babe Ruth League openers at the Memorial Field diamond last night.

L&R batters were held to two hits by Don Marrier but a number of errors, stolen bases and seven walks led to the victory. The winners scored five big runs in the third and the Kiwanis threatened with four in the sixth but couldn't overcome the mar-

gin. Charlie McCarthy went the route for L&R and scattered 10 hits while walking five and fanning seven. Marrier whiffed nine for the losers.

Gary Paler and Johnny LaBranche hooked up in a neat hurling duel in the nightcap. Paler, going the distance for the Elks, allowed six hits and fanned 14 while issuing six walks. LaBranche also went the route, giving up five hits, fanning 11 and walking four. Neither hurler allowed more than one hit in any one inning.

The Elks took a 3-0 lead with three runs in the fourth. A double by Chig was the big blow in the inning. AFL came back with two runs in the sixth on a double by Frank Katarinski and added another in the seventh to tie the score. A double by Orzel scored Marrier with the tying run in the seventh.

The game was called at the end of the seventh.

Carter 3-1 Favorite

Over Charley Riley

ST. LOUIS (P)—Ex-lightweight champion Jimmy Carter rules a 3-1 favorite to take the measure of Chillin' Charley Riley in their scheduled 10-round bout at the St. Louis Arena tonight.

Carter is expected to weigh 135 pounds and Riley 131. Their fight will be televised by CBS at 8 p. m., CST.

Curse Of Winter Ball Plagues Braves' Buhl

By BEN PHLEGAR

AP Sports Writer

Bob Buhl's efforts to duplicate his fine first year with the Milwaukee Braves appear to be stymied by the curse of the winter leagues.

A pleasant surprise as a freshman, a terror in Puerto Rico during the off season, the tall, fast-balling right-hander hasn't been able to buy a victory this spring.

He lost his fourth straight Tuesday night, 2-0 to Brooklyn, as the Dodgers continued their 1953 habit of being the only visiting club to win regularly in Milwaukee. The defeat cut the Braves' first-place margin to four percentage points over Brooklyn.

13-8 Last Year
Buhl came out of the minors and

the Army last year to post a 13-8 record with the relocated Braves. During the winter he blazed through Caribbean competition to the tune of 14 and 3.

Came the major league spring training and Buhl was so far ahead of the hitters they couldn't get their bats off their shoulders fast enough to get a loud foul.

But with the start of the regular season his magic disappeared. He hasn't been bad, but just not good enough. He has started seven games and has been lifted every time.

Two Rained Out
The Milwaukee-Brooklyn game was the only action in the National League Tuesday as rain brought postponements of St. Louis at Chicago and New York at Pittsburgh.

In the American League Philadelphia walloped Boston 16-6. New York defeated Washington 9-3 and Detroit edged Baltimore 4-3. Baltimore fell to last place.

Billy Cox scored the two Brooklyn runs. He walked in the third inning and moved around on a sacrifice by Russ Meyer and a single by Pee Wee Reese. In the fifth he singled, was again moved to second by Meyer and scored on a single by Junior Gilliam.

Boxos Blasted
Just when the Red Sox thought they were set to go places with a three-game winning streak the lowly Philadelphia Athletics became aroused and battered the Bostonians all over Fenway Park.

Gus Zernial hit his 10th and 11th homers and drove in six runs. Bob Trice joined in the fun with a home run and double in winning his fifth game.

Bob Grim, the only rookie pitcher to stick with the Yankees this season, held Washington hitless through the last five innings and scored his fifth success. Hank Bauer had a perfect afternoon, collecting three walks, a home run

—both over Baltimore—against four setbacks on the road trip which will carry the Tigers to six American League cities.

They pounded out 10 hits to hand an old teammate — Lou Kretlow — his fourth loss with nary a win.

Essentially, it was the rookies who did it for Detroit.

Second baseman Frank Bolling knocked in two runs with a single in the decisive three-run fifth. Catcher Frank House and Branca knocked in the other runs.

SETS NEW RECORD — Anchorman for the Ishpeming High School medley relay team drives home a step ahead of the host Manistique Emerald finisher to set a new Great Lakes Conference track and field record. The Ishpeming quartet breezed through the three-quarter mile relay in 2:42.45 for the new standard. (Linderoth Photo)

Charlie Grimm Sets Two Platoon System

By CHRIS EDMONDS

MILWAUKEE (P)—The two platoon system goes into effect tonight for the Milwaukee Braves, with team captain Del Crandall included out in both setups.

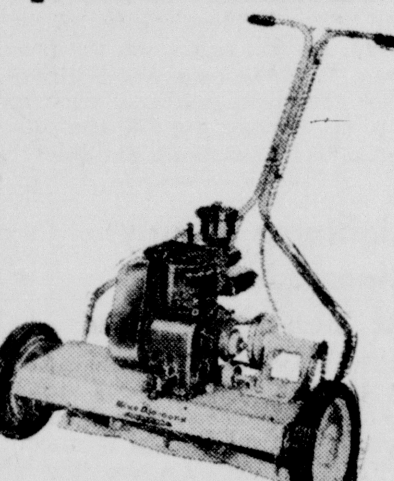

"I gotta do something to get some hitting," manager Charlie Grimm declared Tuesday night after his team dropped its third straight game at County Stadium, this one to Brooklyn, 2-0. The victory, fourth in a row for the Dodgers, pulled them to within four percentage points of the first place Braves.

Under the new setup, Billy Bruton will continue in centerfield against right-handers, with Jack Dittmer replacing Danny O'Connell at second base and Charles White handling the catching. All bat left.

Against lefthanders, Jim Pendleton will take over for Bruton, Sam Calderone will do the catching, and O'Connell will play at second.

Crandall, chosen No. 2 catcher on the National League All-Star team last summer but unable to appear because of an injured hand, was batting .172 before last night's

Former Ring Champ Lies Seriously Ill

LOS ANGELES (P)—Former fighter Bud Taylor, who came out of Terre Haute, Ind., as a terror in the 1920s to win fame in the bantam and featherweight division, lies seriously ill today.

The 54-year-old Taylor, recognized in 1927-28 as the world bantamweight champion by the National Boxing Assn., suffered a heart attack early Tuesday.

He has lived here since he retired from fighting in 1931.

Not Trying For Homers Says Slugging Musial

(Second of a series)
By JOE REICHLER
NEW YORK (AP)—Stan Musial is hitting home runs at a more furious clip than ever before but insists most of his fourbaggers are "accidents."

"I'm no home run hitter," he protested. "I'm just a li'l old single hitter. Besides, I'll take four singles to one home run any day in the week."

"Whenever I try to hit the long

ball, I never do. I hit 39 home runs in 1948 without trying to hit even one. I finished that season only one behind Ralph Kiner and Johnny Mize who tied for the league lead. So I deliberately went for the fences the next year. Not only did I stop hitting homers, I also stopped hitting singles. That's when I quit trying to become a slugger."

Two Exceptions
"I haven't tried for a home run

since — except on two occasions. That was last May 2 when I hit those five homers in a doubleheader against the Giants. After I hit my fourth, the announcer informed the crowd I'd just tied a record."

"I made up my mind to get that fifth one. Hoyt Wilhelm was pitching. He threw me a knuckler and — oh boy! — that fifth one went all the way over the roof in right center. I had a chance to get a sixth one but I oversteered and raised a puny little pop."

What does it take to make a great hitter, Musial was asked.

Speed of Reflexes
"Of course, good eyesight and timing are important and you need power, especially when you're trying for extra base hits. But I think the real secret of a great hitter's success is the speed of his reflexes. By that I mean the ability of a batter, who has set himself for one kind of pitch, to change his batting swing in a split second when he sees that his original judgment of the pitch was incorrect."

"A hitter should always hit the ball in front of him. When you hit to centerfield you don't come out in front and you don't have your full power. Besides, it's bad percentage. A team's best defensive players are supposed to be the second baseman, shortstop and centerfielder. So why hit to the other team's strength?"

Big Ten Coaches Select Track And Field Squad

CHICAGO (AP)—Big Ten track coaches have selected a 35-man squad, including eight athletes from both champion Illinois and runner-up Michigan, for the annual meet with the Pacific Coast Conference.

The meet will be held at Northwestern's Dyche Stadium in suburban Evanston June 15.

The PCC, with performances generally better this season than in the Big Ten, is favored to win.

Vukovich Gets \$75,000 Purse

INDIANAPOLIS (AP)—The record breaking 500-mile race at the Indianapolis Motor Speedway Monday produced a record payoff Tuesday night, but winner Bill Vukovich got considerably less than he did last year.

Vukovich picked up checks for \$74,934.84 (to be shared, of course, with owner Howard Keck and crew members) at the annual victory dinner. When he won a year ago his prize money totaled \$89,496.96.

Last year he started from the pole position and led for 195 of the 200 laps, at \$150 a lap. Monday he had to fight his way through the pack and led for only 90 laps.

The total purse, a record, was \$269,375.

Jimmy Bryan of Phoenix, Ariz., took \$35,884.84 for second place. Jack McGrath of South Pasadena, Calif., won \$26,909.84 for third; Troy Ruttman of Salem, Ind., \$12,709.84 for fourth, and Mike Nazaruk of North Bellmore, N. Y., \$10,934.84.

The payoff ranged down to \$2,414.85 for the 33rd car.

Spartans Win Playoff For Baseball Honors

EAST LANSING (AP)—The Spartans of Michigan State, 5-3 victors over Ohio University in a rain-shortened third and deciding game of the District Four playoffs, will represent the Midwest in the NCAA baseball championships.

MSC will compete in round-robin games with teams representing seven other districts at Omaha, Neb., June 10-14.

The deciding game Tuesday was delayed for nearly an hour by a downpour after the third inning. It was called finally after 4½ innings of play, following agreement by both coaches.

Holstein Queen In Hotel Lobby

GRAND RAPIDS (AP)—The queen of Michigan's Holstein dairy cows provided quarters Tuesday in the lobby of the Pantlind Hotel, a prize exhibit of the annual convention of the Holstein-Friesian Assn. of America.

Some 1,500 of the nation's top Holstein breeders are expected to attend the convention which ends Thursday with an auction of more than 100 outstanding Holsteins from the United States and Canada.

Michigan's Holstein champion, Lakefield Winterthur Hello, won top honors Monday at the state's annual black and white show in nearby Lowell. The cow is owned by Gilsted Farm of Belding.

Reserve champion female honors went to four-year-old Lakefield Forbes Delight owned by Lakefield Farms of Clarkston.

Grand champion bull was Gomar Hickory Lad, a two-year-old, shown by H. A. Miller and Sons of Williamston.

Reserve champion bull was Clyde Hill King Forbes Rock, jointly owned by George Pardonnet of Corunna, Lakefield Farms, and Russell Woodard of Owosso.

Two Iowa teen-agers, James Reisbig, 18, and his sister Nancy, 15, won first and second and top boy and girl honors in the showing and fitting contest for 4-H Club members.

Mackinac Island Invites President For '55 Vacation

WASHINGTON (AP)—President Eisenhower Tuesday was invited to spend his 1955 summer vacation at Mackinac Island in Michigan.

The invitation was extended at the White House by members of the state's congressional delegation and the Michigan Legislature, which recently passed a resolution urging the President to go to Michigan next year.

Sen. Ferguson (R-Mich.) told newsmen Eisenhower was delighted by the invitation and promised "to have his representatives look the situation over."

In response to a question, Ferguson said the delegation received no definite commitment but was encouraged to feel that Eisenhower might visit Michigan.

Ferguson spoke of the "big problem" of providing housing accommodations for the President, his staff and newsmen who would accompany him, but added he was confident that the situation could be handled at Mackinac Island.

The senator said so far as the President himself is concerned, a number of private homes are available for his use at Mackinac Island.

Ferguson said Eisenhower asked him about golf and fishing facilities at the island.

"I told him there was both good fishing and golf," the senator said.

At 96, He Collects On His Own Insurance

SPRING HOUSE, Pa. (AP)—Fritz J. Hartman, who still lists his name as "Junior," became eligible to collect \$1,189 as the beneficiary of his own life insurance policy.

He bought the policy in 1901 and stopped paying premiums in 1921. Mutual Life Insurance Co. of New York announced it had offered Hartman the privilege of cashing in the policy on the anniversary date nearest his 96th birthday anniversary, which will be next Oct. 13.

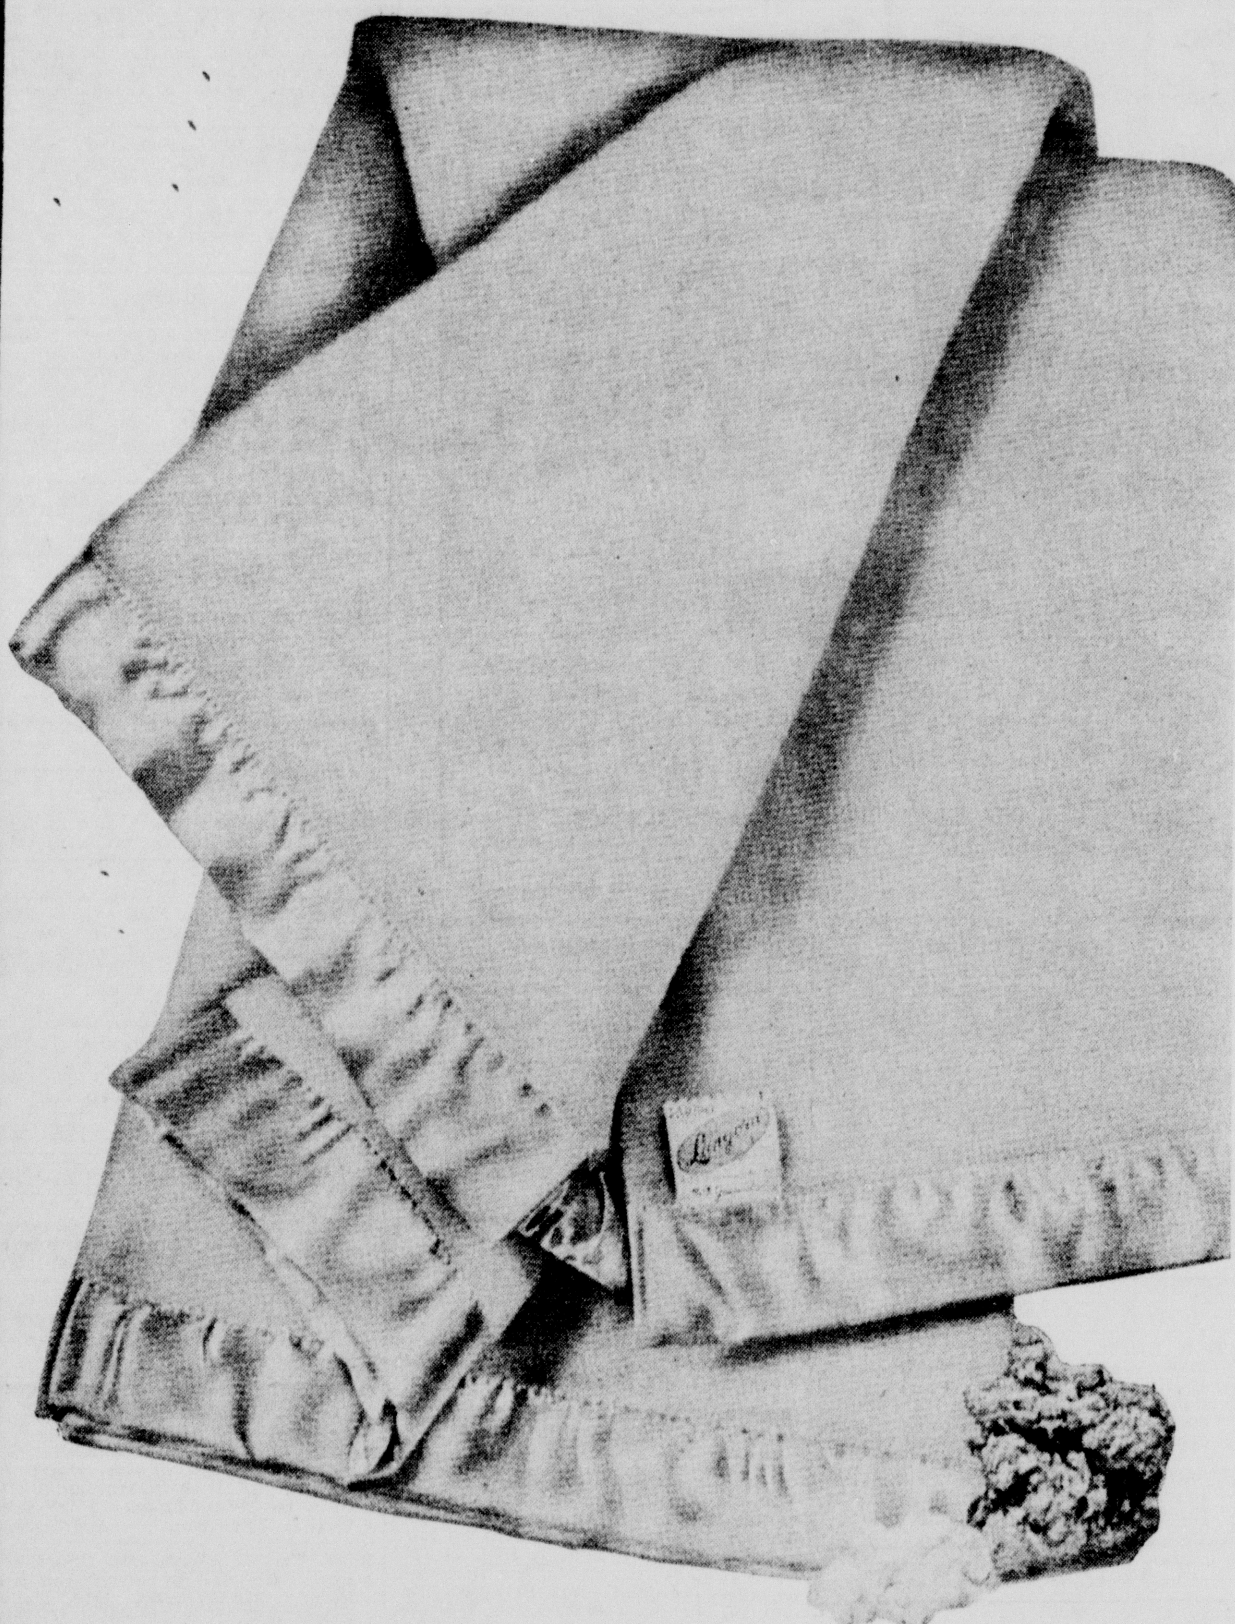

The company said only three persons out of every thousand can hope to reach 96.

IN THE HOME WORKSHOP

Trellises may be used in various ways to add the charm of individuality to the house exterior. The above sketch is an example. Across the end of a porch to give privacy or to soften the corner of a garage a door or window are other uses. The pattern shows views of four styles of trellises and three designs for flower boxes. As tracing patterns are required only for the shaped parts space has been found on the pattern for directions to make the door-side seats and an interesting garden gate that is easy to make. The pattern is rich in detail with sketches and practical suggestions for the "do-it-yourself" builder. Price of pattern 314 is 25 cents.
